

For 12-Year-Old Royal Jones of Denver, Colo., a chilling brush with death has ended. He leaves Colorado General Hospital Friday to continue recovery at home after a rare kidney transplant operation Nov. 24. Both kidneys stopped functioning, making the transplant necessary. His mother, Mrs. Royal Jones, gave one of her kidneys. (AP Wirephoto)

GOP Plans Measures On Kennedy Spending

U.N. Will Continue Drive in Katanga

Governors and Army to Meet On Guard Plans

Concessions Sought In Planned Drastic Moves by Pentagon

WASHINGTON (AP) — A committee of governors comes to grips with the Army today in a bid for concessions that would permit the states to swallow a drastic reshaping of the National Guard.

Secretary of the Army Cyrus Vance arranged to meet with a seven-man committee headed by Gov. Ernest Vandiver of Georgia. This committee, representing the 50 governors, was armed with certain proposals advanced by state Guard commanders.

These proposals would not alter the basic elements of the reorganization plan, which calls for breaking up four Guard infantry divisions and eliminating a net of 338 company and detachment size units considered outdated.

It appeared unlikely the meeting would produce any final agreement, although the committee would produce a report.

Ralph Bunche Pledges Action Will Go on Until Freedom Of Movement Can Be Assured

LEOPOLDVILLE, the Congo (AP) — Dr. Ralph Bunche has pledged that the United Nations will carry on its action in Katanga until the U.N. force is assured freedom of movement throughout the secessionist territory.

The U.N. undersecretary for special political affairs made the statement on his arrival here late Friday night amid reports of a conflict between U.N. headquarters in New York and U.N. officials in the Congo over the wisdom of holding any new talks with Katanga President Moise Tshombe.

Bunche said he was confident his talks here with U.N. officials would prevent a recurrence of "the temporary breakdown in effective communication" between U.N. headquarters and officials in the field.

Order Unrelated

The breakdown had aroused speculation that the U.N. force had overstepped its orders when it captured the mining town of Jadotville, 70 miles northwest of Elisabethville, two days ago. The Belgian government contends U.N. troops violated an order by U.N. Secretary-General U Thant in taking the town.

But Bunche declared the capture of Jadotville had been part of a plan approved by Thant last October.

Thant's dispatch of Bunche to Leopoldville raised a diplomatic flurry over the next move in the conflict.

Bunche did not say whether he expected the United Nations to switch to political means to establish its freedom of movement or whether the U.N. military force would continue a drive that in nine days has all but shattered Tshombe's army.

Reports from Jadotville said

the U.N. flying column was halted there, apparently waiting for its armor and transport to cross the Lufira River, about 15 miles to the rear, where bridges have been demolished.

No Advances

Earlier reports said the Indian, Irish and Ethiopian forces at Jadotville were under strict orders not to advance on the secessionist bastion of Kolwezi, 80 miles to the northwest, where Tshombe and his disordered gendarmes and white mercenaries have gathered for a possible last-ditch stand.

Diplomatic sources here reported Thant wants Tshombe to return to Elisabethville to make a start on putting into force the secretary-general's plan for reunifying Katanga with the rest of the Congo.

But U.N. officials in Leopoldville were reported opposed to any procedure that would give Tshombe a chance for delaying tactics.

Rites Held For Carson, Dick Powell

HOLLYWOOD (AP) — The motion picture colony paid final tribute to actor Jack Carson today, just 24 hours after it mourned another famed entertainer, Dick Powell.

Cancer claimed both Wednesday within a five-hour span.

One of the biggest turnouts of celebrities in recent years attended services for Powell Friday. They included former Vice President and Mrs. Richard M. Nixon.

A quiet crowd of 300 fans stood across the street from All-Saints Episcopal Church in nearby Beverly Hills as the stars drove up. Among the mourners were actress June Allyson, Powell's widow; their two children, Pamela, 14, and Richard, 12, and Powell's former wife, actress Joan Blondell.

While memorial services were conducted in the church, the body of the 58-year-old actor-producer was cremated some 20 miles away in Forest Lawn Memorial Park.

Carson's body also was cremated at Forest Lawn after services today at its Wee Kirk of the Heather.

Chin Whiskers Not Vogue

'Facial Decorations' Shunned by Congress

BY LEWIS HAWKINS

WASHINGTON (AP) — If you think the incoming 88th Congress is turning a cold face to the once-prevalent chin whiskers and mustaches, you should see what it's doing to the bow tie.

Not only are there none of those cartoonists' favorites, the string-low and the flowing Windsor, but there are precious few of the modern, squared-off or slightly pointed bows.

This intelligence is the result of painstaking research through the newly issued pocket directory of the 88th Congress which pictures every member.

Off Camera

Of course, some of the 500-plus male members of the Senate and House may sometimes desert the sober four-in-hand and sport a festive bow when off camera. But when before the photographer to be recorded for posterity, only 17 of them faced the lens wearing a bow.

On the other hand, 22 face camera and voters with mustaches—albeit most of these facial decorations are conservatively meager and would have been regarded as no whiskers at all a few congressional generations ago.

The Senate—once the stronghold of the more picturesque in backwoods—turns up only one bow-

Repair Crews May Disrupt Congressmen

Rewiring Project On Capitol Now In Fourth Year

WASHINGTON (AP) — Congress members will have only themselves to blame if their own pet refurbishing projects aren't finished and painters and electricians are still underfoot when the new session opens Wednesday.

The Capitol architect and his staff must wait for adjournment before they tackle projects that might disrupt the legislative process. In most years Congress gets out of town by Labor Day, giving them a short four months to get the job done.

But last fall, even with the pressure of an election campaign, the legislators didn't bring the session to an end until mid-October. This chopped off nearly six weeks of construction working time.

5-Year Project

As a result, said assistant architect Mario Campioli, a five-year project to rewire and relight the 170-year-old Capitol building, now in its fourth year, may have to be stretched out to six years or even longer.

There was time, however, for a change that will make it a bit easier for tourists to find their way about the Capitol. Instead of the letters B, F, P, and G on elevators, standing for basement, first, principal floor and gallery, the floors are now labeled B, 1, 2, and 3. A similar simplification has been applied to room numbers.

"If you were looking for P-1 under the old system," Campioli said, "you had to know whether it was on the Senate or House side. Now we're putting the prefix S before numbers on the Senate side and H before those on the House side." This would mean that P-1 on the Senate side now would be S-200, since the principal floor is the second floor.

Much Painting

There still is much painting and cleanup work going on all over the area, especially on the House side.

South of the Capitol the huge Rayburn Office Building is going up, with the earth gashed in a zigzag line running to the Capitol, marking the path of the new subway which will give House members the same privilege of riding to the Capitol that senators already have.

The huge office building isn't scheduled for completion until next year.

Foreign and Domestic Aid Are Targets

WASHINGTON (AP) — Senate Republican leader Everett M. Dirksen of Illinois has signaled a GOP drive in the new Congress to hold the economy line against President Kennedy's domestic and foreign spending programs.

Such presidential proposals as federal aid to education and the financing of health care for the elderly through an increase in Social Security taxes probably will be turned down again, Dirksen told reporters Friday.

On Kennedy's plans for a tax reduction, Dirksen indicated most Republicans would take the position he and House Republican leader Charles A. Halleck hold: There should be no cut unless spending is slashed.

Foreign Aid

On the foreign aid front, Dirksen foresaw deep trouble ahead for the aid program. These difficulties, he said, will be compounded by the expected submission by Kennedy of a \$99-billion budget.

"I think the temper of the country is turning against foreign aid," Dirksen said. "The people don't see any real results from it. They are getting tired of pouring money into a program they don't think is effective."

Dirksen indicated he has no intention of joining with Democratic leader Mike Mansfield of Montana in offering a compromise rules change when Senate liberals launch an effort to ease the Senate debate limitation requirement.

The Illinois senator indicated he is keeping an open mind on Democratic overtures that he take a post on the Senate Foreign Relations Committee. Because he has given Kennedy strong support in international crises, Mansfield has proposed that Dirksen fill one of two vacancies on the 17-member committee.

Committee Division

If he accepted, the Democrats would agree to let the committee division stand 11 to 6 in their favor, instead of reducing the GOP representation to five and giving the other post to a Democrat.

Dirksen also told the reporters, meeting with him in his office on his 67th birthday, that he and Halleck expect to resume weekly news conferences shortly to point up their party's differences with the Democratic administration.

For economy reasons the National Republican Finance Committee has cut off the funds to finance staff operations for the conferences, widely known as the "Ev and Charlie Show." Dirksen said, however, he anticipates no difficulty in getting the money elsewhere.

Newspaper Strike Probe Planned

NEW YORK (AP) — A House subcommittee in Washington plans to study New York's four-week-old newspaper strike. The announcement came a few hours after a city councilman here appealed to President Kennedy to halt the strike by invoking the Taft-Hartley Act.

Rep. Emanuel Celler, D-N.Y., chairman of an antitrust subcommittee, said Friday his group would start hearings into the newspaper blackout early in the congressional session opening next week.

The congressman did not go in to detail about what his subcommittee will try to learn about the strike. Earlier, Republican Councilman Theodore R. Kuypferman telegraphed Kennedy asking him to invoke the act which would require printers to return to work for an 80-day cooling off period.

Freezing Drizzle, Light Snow Likely

Wisconsin—Cloudy with freezing drizzle or light snow likely today. Low tonight, 18. High Sunday, 22. Light and variable winds from the northwest tonight and Sunday.

Apples—Temperatures for the 24-hour period ending at 9 a.m. today: High, 33; Low, 23. Wind is from the northwest at 4 miles an hour. Barometer reading: 29.54 and steady. Temperature at 9 a.m.: 28. No precipitation was recorded. Three inches of snow remain on the ground.

Sun sets at 4:38 p.m., rises Sunday at 7:29 a.m. Moon sets tomorrow at 3:40 a.m.

'Fever' in Telstar Cured by Unusual Feat of Space Age

Radiation Encountered Was 100 Times Stronger Than Expected

BY ALTON BLAKESLEE

NEW YORK (AP) — The great new feat of the space age is a service station operating from earth.

It cured Telstar, the ocean-hopping television satellite, of a kind of brain fever that had knocked it out of action for six weeks. This service station is no ordinary wind. It is a scientific laboratory and the keen engineering brains that figured out what ailed Telstar and how to get rid of its fever, not unlike an aspirin relieving a human fever.

The stupendous thing is that it has done while Telstar whizzed around the earth out of reach at heights of 592 to 3,501 miles. Tel-

star even gave an unexpected assist in its recovery.

Success Friday

The story is told by Bell Telephone Laboratories engineers, who repaired Telstar so it can again exchange live television programs across the Atlantic. They demonstrated their success Friday.

Telstar was launched July 10 and beamed brief television programs to Europe and back.

But in November, Telstar began refusing to answer command signals from the ground to turn on power to relay signals.

Then the service station of knowledge and intelligence came into play. Bell labs gives credit for this feat to Robert H. Shennum, Henry Mann, John S. Mayo, Eugene F. O'Neill, Alton C. Dickerson, Walter L. Brown and Walter M. Gibson among others.

They puzzled, asked questions, and came up with right answers. They knew Telstar would encounter radiation in the Van Allen belts. Telstar equipment was designed to withstand it.

But Telstar ran into radiation 100 times stronger than anticipated.

Kennedy and McCone Meet

Heavy Foreign Policy Implications Likely in Plans

PALM BEACH, Fla. (AP) — President Kennedy today squeezed a hastily arranged appointment with John A. McCone, director of the Central Intelligence Agency, into a schedule heavy with foreign policy implications.

The holiday White House announced Friday night that McCone was flying to Palm Beach to confer with Kennedy before noon on a topic not yet disclosed. To make way for this visit, Kennedy set back until later in the morning a previously announced session with Secretary of State Dean Rusk and Thomas K. Finletter, U.S. ambassador to the North Atlantic Treaty Organization.

All this activity comes a day after it was disclosed that Arthur H. Dean, veteran disarmament negotiator, had resigned effective New Year's Eve.

Word of Dean's resignation, on five days notice, leaked out in New York and Washington hours before White House officials here made public his letter to Kennedy and the President's reply.

Dean told Kennedy that "though it is a matter of sincere regret to me, urgent personal considerations require me to resign."

Kennedy praised Dean for outstanding service and said the resignation was being accepted with great regret and offered "heartfelt thanks."

Kennedy Dabs His Eyes During Rites for Kerr

OKLAHOMA CITY, Okla. (AP) — Sen. Robert S. Kerr, Oklahoma's homespun statesman, was laid to rest Friday in simple rites attended by a saddened President Kennedy and other national leaders.

Kennedy dabbed his eyes as he sat in a front row pew, a few feet from Kerr's rose-draped coffin. He was flanked by Vice President Lyndon B. Johnson and Oklahoma's Gov. J. Howard Edmondson. Behind them were a Senate delegation of 28, several congressmen, Treasury Secretary Douglas Dillon, generals, admirals and a host of other state and national officials.

The bronze coffin, surrounded by scores of wreaths and flower sprays, was not opened during the services. An organ played softly, but there was no choir.

Kerr, 66, died Tuesday in Washington of a heart attack. He was serving his third term in the Senate and was considered one of its most influential members.

Adenauer Notes Birthday With All-Day Party

BONN, Germany (AP) — Konrad Adenauer, West Germany's iron-willed chancellor, today observed his 67th birthday, presumably his last in office. He celebrated it with an all-day party.

The chancellor recently promised to retire next fall upon the completion of 14 years in office. His successor remains to be chosen, but Economics Minister Ludwig Erhard, 65, is considered the favorite.

U.S. President Kennedy led off the congratulations to Adenauer which began arriving from all parts of the world.

"It is a great pleasure to congratulate you on your 67th birthday and on another year of service to your country," Kennedy said in a telegram.

"Few men of any age carry the burden of high office with such force and energy and no one has done more for the cause of freedom. For these accomplishments I wish to express my deepest admiration. Mrs. Kennedy joins me in this."

35 Cubans Promoted To Top Military Rank

HAVANA (AP) — Thirty-five military officers have been promoted to commander, the highest rank in Cuba's armed forces, the Havana press reported Friday.

Plane Flights At Winnebago Total 21,928

Tower Was Put Into Service In Middle of May

OSHKOSH — Airplane landings and takeoffs at the Winnebago County Airport here during the 7 1/2 months the flight control tower has been in operation total 21,928, according to Larry Davis, tower chief.

Davis projected the number of landings and takeoffs would be 35,079 if the tower had been in operation for a year. The tower was commissioned May 15.

During the 17 days of May when the tower was in operation there were 1,738 landings and takeoffs. Totals for the other months are 3,122 in June, 3,233 in July, 3,614 in August, the largest number for any month, 2,942 in September, 2,624 in October, 2,536 in November and 2,121 in December.

Of these close to 22,000 takeoffs and landings, 5,211 were of airline planes and charter planes which fall into the air carrier classification. There also were 12,285 landings and takeoffs under itinerant general aviation, 103 for itinerant Air Force planes and 12 for itinerant Navy planes.

Local Flights

Local landings and takeoffs, which is the classification for those planes that takeoff, fly around the area and then land back at the Winnebago County Airport without landing at any other airport, totaled 4,316 during 1962, of which 4,260 were by local pilots and 56 were by Air Force planes practicing landings and takeoffs with the airport's OMNI navigation aid.

Many of the landings and takeoffs classified as local were by pilots practicing landings and by student pilots receiving instruction, Davis explained.

In addition to Davis, there are six controllers and two equipment maintenance men serving the Winnebago County Airport's flight control tower. Additional equipment personnel will be needed when the instrument landing system is put into operation this spring.

Tax Collections Reach \$61,610

KAUKAUNA — A total of 20 persons paid personal property taxes amounting to \$924 the first day of tax collection while 400 paid real estate taxes amounting to \$90,686, according to Miss Ruth Wolf, city treasurer.

The \$61,610 collected is well ahead of last year's payment rate when \$59,450 was collected in real estate taxes and \$712 in personal property taxes in two days of collection.

The amount collected is about 5.2 per cent of the \$1,181,456 total to be raised through taxes.

Village Homemakers Tour Telephone Firm

KIMBERLY — Members of the Homemakers Club are to meet at Washington and Superior streets, 32, one of six officers assigned Appleton, at 8 p.m. Thursday for a tour of the Wisconsin Telephone Co.

1,048 Tax Bills Put in Mail At Winneconne

WINNECONNE — Tax bills were mailed this week by village treasurer W. A. Gould to 1,048 property owners for payment of \$148,877.

The 1962 tax rate for the village is \$20 per \$1,000 of assessed valuation but this is reduced slightly by the sales tax rebate.

The 1962 rate was \$26.

Largest item in the budget is \$74,448 for the school district. This accounts for \$13,268 of the tax rate. The balance of the \$26 rate includes \$3,947 for state and county taxes, \$9,961 for the village tax rate and \$9.6 cents for the school building cost.

Revenues are estimated for this year at \$23,300 from sources other than the property tax levy.

Planning Chief To be Sought By Commission

Personnel Committee Given Authority to Advertise for Man

Applications for a planning director will be solicited soon by the personnel committee of the Fox Valley Regional Planning Commission.

The committee received authority Friday from the commission's executive committee to advertise for a director.

Personnel committee members will meet to draw up job specifications and education and experience requirements as soon as Chairman Arthur Lecker calls a meeting.

Salary Flexible

Although the executive group thought the salary would have to be flexible, depending on how qualified a man can be hired, there is \$8,500 in this year's budget for a director. There is another \$7,000 in the budget for another planner, but that man may not be hired immediately.

It is necessary to hire a planning director because the contract with Kenneth L. Schellie and Associates, Indianapolis, the former full-time consultants, expired Dec. 31.

Continues Work

Charles Zahn, a Schellie employee and resident planner under the three-year contract, is continuing work here during the transition to a locally staffed operation.

The last Schellie report, a comprehensive plan for the entire region, is due in a short time. Capital improvements plans for communities which requested them should be delivered soon, Zahn said.

Personnel committee members in addition to Lecker are Mayor John L. Klein of Menasha, Donald W. Colburn, Neenah, Alvin Fulcer, Kimberly village president, and Daniel J. Williams, Combined Locks village president.

Ex-Maier Aide Told Of Resignation Forms

Judge Coffey 'Shocked' With Police Orders to Reveal Source of Document

MILWAUKEE (AP)—A police officer said Friday night that a copy of Mayor Henry Maier's document of methods of obtaining the resignations of appointees was obtained from a former Maier aide and turned over to a John Doe investigation.

The mayor had said the document was stolen and asked police to investigate. He also said he wanted to know how it found its way to the John Doe investigation, then to Assistant Atty. Gen. LeRoy Dalton and to Atty. Gen. John W. Reynolds, the governor-elect.

Chief's Orders

A police department statement said information on how the document came into the hands of John Doe investigators was given by Police Sgt. Herbert L. Krusche, 32, one of six officers assigned to the John Doe proceedings.

The statement said Krusche furnished the information on the orders of Police Chief Howard O. Johnson.

Circuit Judge John L. Coffey

who is presiding over the John Doe probe, said he would call Johnson and Detective Inspector Harold A. Breier to find out why they had ordered Krusche to reveal where the document came from.

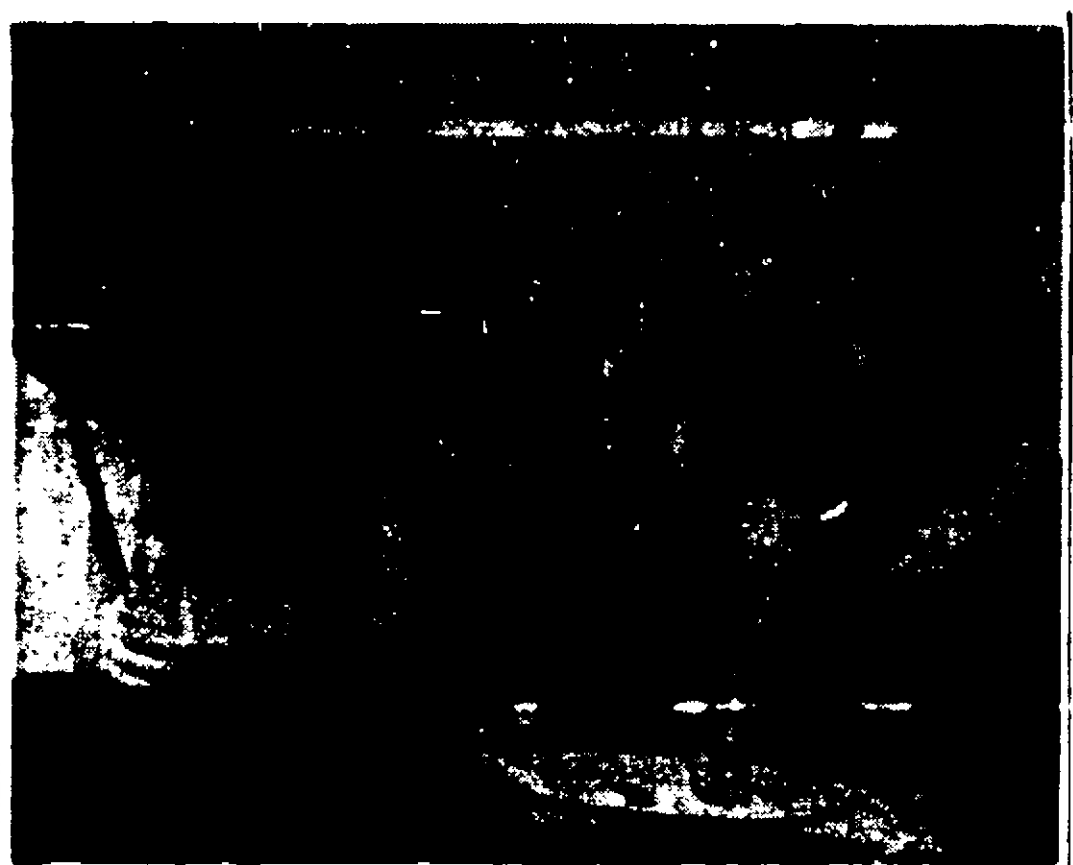

Coffey said he was "surprised and shocked" by the orders of the police officials. He said the information should have been kept "in strictest confidence."

Dalton, a key figure in the Doe investigation, also said he was "very disturbed" that the officer had been ordered by Johnson to report on the origin of the information.

Former Aide

Krusche said he received a copy of the mayor's document from Arthur Else, 48, the mayor's former chief administrator, who is now a staff member of District Council 48 of the American Federation of State, County and Municipal Employees. Else declined comment on the development.

Else was dropped from the mayor's staff after he disagreed publicly with several of Maier's policies.

Members of the Appleton High School orchestra talk at an orchestra party over the holidays. Village Schools Get Tax Advances

Hortonville Board OKs Transfer Of \$15,000 From 1962 Receipts

HORTONVILLE — Village schools were given advances totaling \$15,000 by the village board Thursday night. The advances include \$10,000 for the high school and \$5,000 for the elementary school and were taken from 1962 tax receipts.

Village attorney Kellard Lathrop was instructed by the board to draft an order condemning land for an alley between N. Pine and Nash streets, north of the buildings bordering Main Street.

Discussion about the wayside park, east of the village, again came before the board. A question was asked whether the county had accepted the title to the property given for the wayside.

Discusses Planning

Formation of a planning commission was discussed. Duties of the commission would be official mapping, land use and layout of future streets. A manual obtained from the state was used as a basis for discussion. No action was taken.

The board thanked the Outagamie County Highway Commission for the assistance given the village when a village-owned tractor went through the ice on Black Otter Lake. The county dispatched a wrecker to pull the tractor from the water.

Hortonville Realty, 115 W. Main St., was issued a permit to remodel its office.

Board members discussed forming an adult band. President Ray Warner said there is interest in the group. High school band director Ernest Broeniman has agreed to direct such a band.

Warner said. The board agreed to invite Broeniman to a future board meeting to discuss the band.

The agriculture stabilization and conservation committee was granted permission to use the village hall for future meetings.

As soon as a CD instructor can be obtained, the board favors forming a force of about 50 men. The village does not have a separate CD unit and is part of the Outagamie County organization.

Dun and Bradstreet Report Shows 1,547 County Firms

MENASHA — Dun and Bradstreet offices in Milwaukee have completed a survey showing that Winnebago County has a total of 1,547 local manufacturers, wholesalers and retailers.

The survey attempted to find out the financial strength of the tangible net worth of individual business and to formulate a composite appraisal of the background, operations, financial stability and payment record of the business, as well as a factor in determining the credit rating of the business.

The report shows the number of businesses in Winnebago County, other than service and professional businesses such as beauty and barber shops, security dealers and real estate brokers, as follows: Menasha, 227; Neenah, 290; Oshkosh, 902; Kaukauna, 8; Larsen, 15; Omro, 54; Pickett, 8; and Winneconne, 39.

Findings are printed in the Dun and Bradstreet Reference Book. Included is a history of the business, who owns it, runs it, and how long it has been operating; a description of what the business does and how it does it; a financial section which usually includes the latest financial statement; and a record of how the business pays its bills.

Oshkosh State Has Food Serving Problem

Partial Help Expected With Completion Of Extra Service Facilities Next Fall

OSHKOSH — One of the most difficult, non-academic problems at Oshkosh State College is how to serve thousands of nourishing meals a year at moderate cost and with a minimum of grumbling, while enrollment continues to rise each year.

Oshkosh hopes the problem will be at least partly solved next fall when separate food service facilities, where men and women dormitory residents will eat together, are completed on the north campus.

Eight other Wisconsin State Colleges also are facing problems as enrollments continue to climb.

But three years ago, when self-financing Union buildings were opened on all the campuses, food service facilities had become woefully inadequate. The colleges at Menomonie, Platteville, Stevens Point and Whitewater conducted their own minimum food service operations. A student co-operative served food at La Crosse. Local persons provided limited food service at Eau Claire, Oshkosh, River Falls and Superior.

Unions Now Equipped

Now you'll find cafeteria lines and snack bars at all the college Unions, prepared to serve one or more meals a day to the 20,500 students and 1,250 faculty members. The 8,000 men and women students living in dormitories have identification cards entitling them to 15 to 20 meals a week for \$150 to \$180 a semester. Most of the other students, who live at home or in private rooms, eat at least one meal in the Union dining rooms.

At seven colleges, the entire food service operation is conducted by private companies which provide their own staffs, plan the menu, buy, prepare and serve the food. Kitchens and dining rooms are owned by the Unions.

River Falls, Superior and Stevens Point have contracts with Ace Foods, Inc., of Milwaukee. The Prophet Company of Detroit serves the food at Eau Claire and Whitewater. The Slater-Minnesota Corporation, with headquarters in Philadelphia, supplies food service at La Crosse and Oshkosh. Contracts are for one year. Quality standards and, in some cases, provisions for "seconds" of pastries, vegetables, bread and butter and beverages, including milk. The Unions are guaranteed a flat amount from the receipts, plus a percentage of the gross over certain amounts.

College Food Service

The colleges at Platteville and Menomonie (Stout) operate their own food service. Studies soon will start to compare services provided by the various private companies and by the colleges.

To keep up with the increase in the number of students and the construction of more dormitories financed by student fees, food service facilities are being enlarged at all of the colleges. Separate food service buildings where men and women dormitory residents will eat together will be completed by next fall at Whitewater and by 1964 on the north campus at Oshkosh. Two food service lines are included in a dormitory being built at River Falls. Other colleges will have more food service as part of the \$6,000,000 Union expansion program to be completed by the fall of 1964, at no cost to Wisconsin taxpayers.

Both the food service and the student customers are becoming more sophisticated. One student recently went to her state assemblyman to complain about the food.

College Group Plans Sacred Concert for Neenah Baptist Church

The Fox Cities Youth for Christ will sponsor a sacred music concert by the Spurrilows, a touring group of college students, Monday.

The concert will be at 7:30 p.m. Monday at Calvary Baptist Church in Neenah.

The Spurrilows are a group of college students who take off one semester to tour the United States with a series of concerts called "Splendor of Sacred Song." The concert Monday will include presentations by the orchestra, chorus, glee club and soloists.

Neenah Firemen Called Out Twice

NEENAH — Fire runs Friday by Neenah firemen were at 10:36 a.m. to 306 E. Franklin Ave. to extinguish a minor fire in the car of Chester Wetzel, 714 E. Cecil St., and at 11:08 p.m. to the Joseph Dashner home at 1013 Main St., when a toaster which had been left on scorched the bottom of the kitchen cupboard and ignited several food cartons.

The Dashners returned home then and found smoke in the house.

Delphian Club

NEENAH — Mrs. Howard Nelson will review Emelyn Williams' "George" at the 2:15 p.m. Monday program of Neenah Delphian Club at the home of Mrs. Charles Bailar, 387 Naymut St., Menasha.

Wood Dumped on Lawn Right-of-Way Skirmish At Shawano in Flareup

SHAWANO — Another skirmish in the battle of the woodpile in the Town of Wescott took place Friday following town board refusal Thursday night to order its attorney, Orville Luckenbach, to remove a woodpile from the right of way in front of neighboring property.

By three p.m. Friday close to 30 cords of wood, cut in two-foot lengths was reposing the Luckenbach front lawn.

Mike Wallrich, who had twice asked the town board to have the Luckenbach clear his wood off the front of Wallrich's property, moved in a small tractor with a front end loader and a dump truck at 1:30 p.m. Friday.

Wood Moved

Undersheriff Fritz Lemhouse asked Mrs. Luckenbach to tell him where the wood should go on the Luckenbach property. Luckenbach was not at home during the transfer. Eight or nine dump truck loads later the lawn was heaped with wood.

Wallrich said he would submit a bill to Luckenbach to clear his wood off the right of way in front of Wallrich property so the property could be sold or a house constructed there. Henry Alhiser said he asked Luckenbach to move the woodpile and Luckenbach said he would. He didn't say when.

Renewed Request

At Thursday night's town meeting Wallrich renewed his request to have the wood removed and the board by a 2-1 vote refused to order its removal on the grounds that it would also have to ask persons who placed things on the right of way in front of their own homes to take them out.

This set off a two-hour debate, punctuated with accusations and name calling on the part of some disgruntled town citizens who brought up a number of past actions of the board.

This resulted Friday in the transfer of the wood from the front of the Wallrich property to Luckenbach's property.

December Temperatures High, Low Weather Records Shattered

Unseasonably warm weather starting at the end of November turned into unseasonably cold weather at the end of December, and shattered daily high and low records.

The warm trend lasted until Dec. 4, with temperatures of 55 and 27. A high of 51 Dec. 2 tied the old record reading for that date.

By Dec. 11, the thermometer dropped to 8 below, tying the previous record low for the date. Cold remained for the rest of the month, with only six days above the freezing mark and nine below zero.

A low of 16 below Dec. 26 set a new record for the date, and was only three degrees short of tying the record low for the month, 19 below.

There were 1,395 heating degree days during December, the lowest since 1900.

Normal snowfall for December is 8.3 inches. Total rainfall for the month was 1.13 inches, .26 inch below normal. The most snow on the ground at any one time was eight inches, Dec. 27.

There were six clear, 16 partly cloudy and nine overcast days. Average wind velocity was 10.2 miles an hour, with west the prevailing direction. A maximum velocity of 26 miles an hour was recorded Dec. 23.

January normals include a mean temperature of 18.0, 1.31 inches of precipitation and 14.0 inches of snow.

On the first and third breaking old record highs for those dates. A high of 51 Dec. 2 tied the old record reading for that date.

By Dec. 11, the thermometer dropped to 8 below, tying the previous record low for the date. Cold remained for the rest of the month, with only six days above the freezing mark and nine below zero.

A low of 16 below Dec. 26 set a new record for the date, and was only three degrees short of tying the record low for the month, 19 below.

Ships Down Terror Quint

AHS Weakened by Loss of Hietpas and McKee in Battle for FRVC Co-Lead

Shipbuilders produced the expected result in an emphatic manner, 55-60. The defending co-champions retained a share of first place with Green Bay West (54-40) winner over East, while dropping the Terrors into a tie for third with their second league loss in five games.

Gary Hietpas and Chuck McKee, two of Appleton's top seven players, both came down with the flu the day of the contest. Hietpas, one of the team's best scorers and its floor leader, played about two minutes of the first quarter but was forced to the bench — unable to keep up the kind of pace this hectic game demanded. McKee, the No. 1 backcourt reserve, didn't play at all.

Even without the incapacitated pair, the Terrors manufactured their highest point total of the season.

It was on defense that Hietpas and McKee were missed most. Manitowoc scored 11 of its 33 baskets on fast breaks or "sleepers," as time and again, it shattered AHS' pressing defense. Hietpas and McKee are rated Appleton's most effective pressers.

All of this is no attempt to detract from the Ships' performance — easily their classiest of the season. Led by a firebrand guard, Dale Lehman, the Ships stormed up and down the court in a relentless attack. They connected on nearly half of their floor shots (33 of 67, for 49.3 per cent), including about a half-dozen "circus" spectaculars.

Lehman, a clever dribbler and hard driver, hooped 31 points. He dropped in 12 of 18 attempts and seven of nine from the free throw line. John Lallensack lent heavy support with 18 points.

Varsity Highs
Brian Bock paced AHS with 16 points. Tom Callaway and Jim Bertschy came through with their varsity highs of 12 and 11 points, respectively.

From an accuracy standpoint, Appleton shot almost as well as the Ships (23 for 51, or 45.1 per cent). However, a bothersome Manty zone kept the Terrors from getting their usual quota of shots.

The Terrors led only once, 3-2, and that situation held for only five seconds, because Greg Sands hit a bank shot to put the invaders ahead for good.

Sands' shot touched off a flurry of 15 straight points, which put the Ships out front, 17-3, with 3:13 left in the first quarter. In their sensational first quarter, the Ships netted seven of their first nine shots — and were 12-for-20 in the 8-minute span.

Manty's lead zoomed to 27-7 at one stage, but AHS got the last three points to finish the quarter 17 points down (27-10).

Lehman and Company again

Writers Name Dave Robinson Top Lineman

PHILADELPHIA (AP) — Dave Robinson, Penn State's All-American end, was named college football's top lineman of 1962 by the Philadelphia Sports Writers Association Friday.

Robinson, a 220-pounder from Moorestown, N.J., has signed to play next season with the championship Green Bay Packers of the National Football League. He will be honored at the association's 59th annual dinner Jan. 28.

VanderKelen Named Captain In 'Hula' Contest

HONOLULU (AP) — Team captains for the North and South in Sunday's all-star Hula Bowl football game were announced Saturday.

Wisconsin's quarterback Ron VanderKelen will head the North squad with Oregon tackle Steve Barnett serving as alternate.

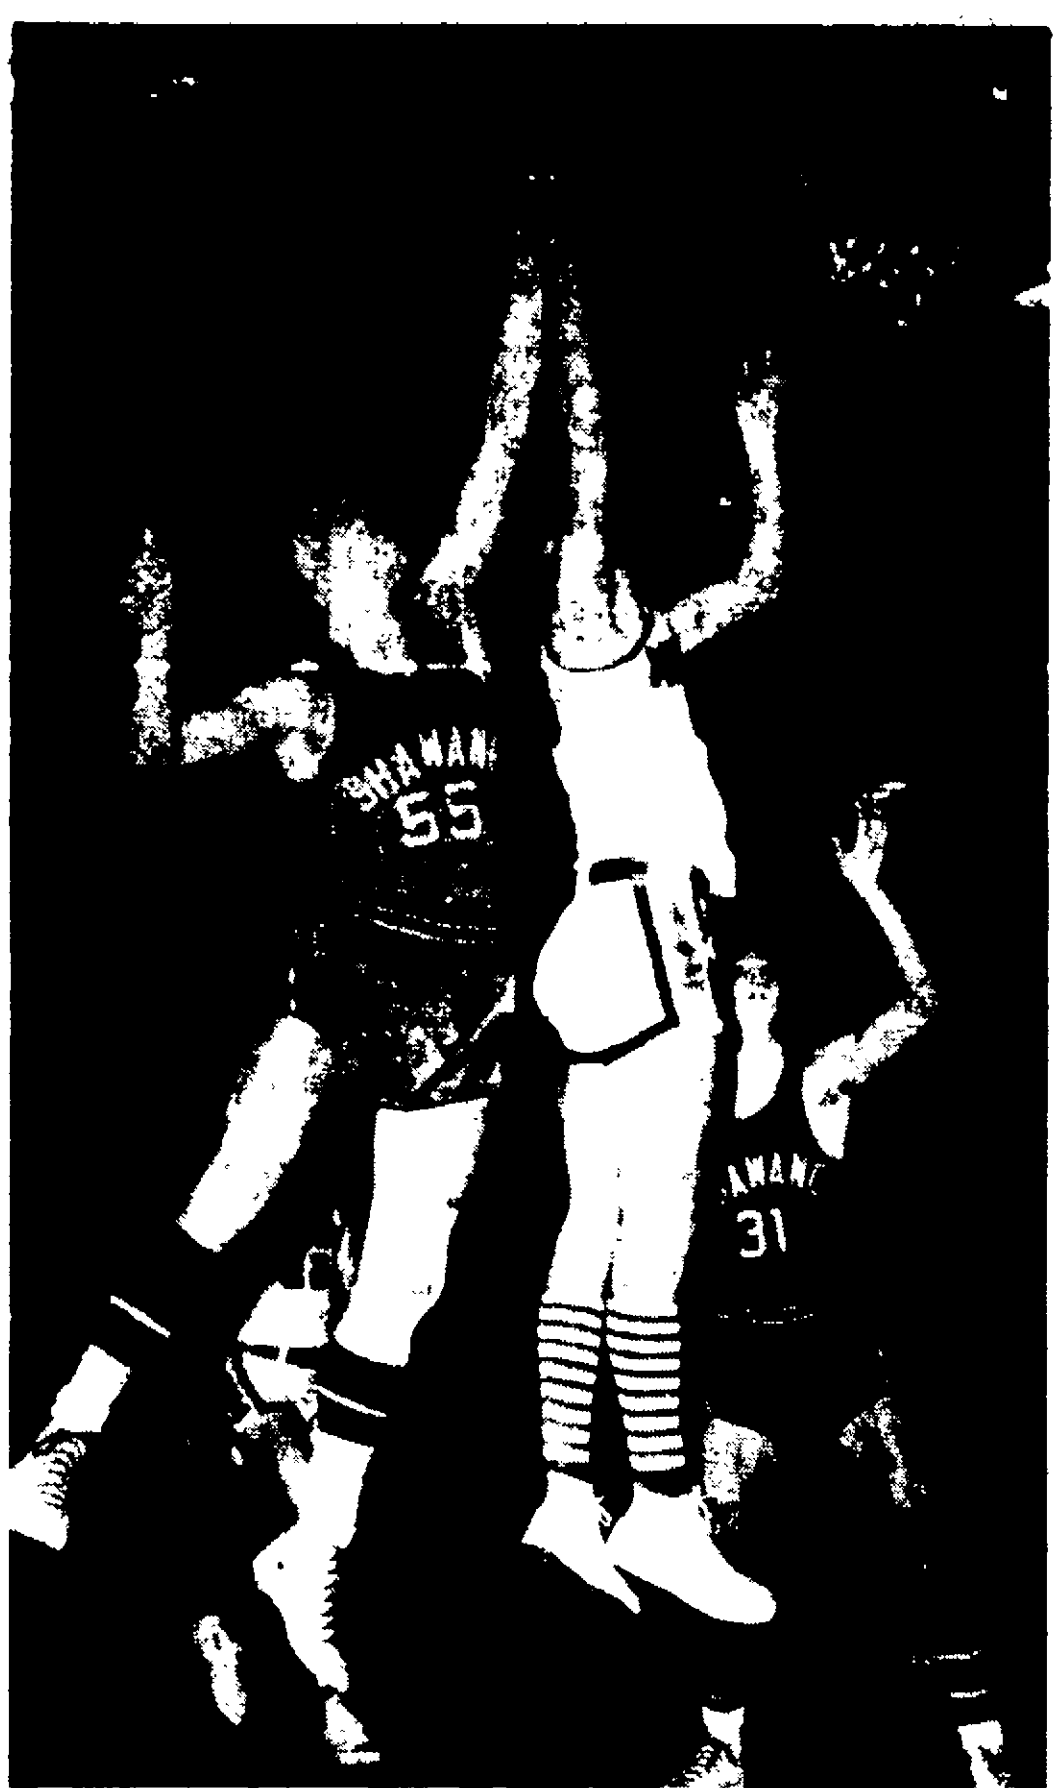

The South selected two linemen as co-captains. They are SMU tackle Ray Schoenke and Georgia Tech guard Dave Watson.

The team leaders were picked in balloting by the two squads.

Investigators Continue to Probe Several NFL Players

Halas Believes Some Gridders Fraternize With Wrong People

MIAMI BEACH, Fla. (AP) — "wrong type of person—and off-field deportment," Halas said.

The National Football League's team of FBI-trained investigators, pushed ahead in its probe of several players today amid reports a scandal was about to break in the league.

However, NFL Commissioner Pete Rozelle characterized the investigation as routine, terming it one of "as many as 15 probes a year" conducted by his office.

Rozelle said players on the Chicago Bears and "three or four other clubs" were being investigated, but added that there was no indication of any wrongdoing.

None of the players was identified.

News of the current probe was brought to light Thursday by George Halas, owner-coach of the Bears and a founder of the league 42 years ago. He said he asked the NFL to follow up rumors about the conduct of a member of a midwestern team.

"I personally had no evidence of wrongdoing," Halas said in Chicago, "but the gossip columnists have come up with disturbing rumors of wrongdoings and talks of federal investigations."

"Matter of Association"

A syndicated columnist reported recently that the Justice Department was investigating a potential scandal in the NFL and the item was picked up by midwestern papers.

"I think it was a matter of association — fraternization with the

wrong type of person—and off-field deportment," Halas said.

Rozelle, who called the probe, "usual rather than unusual," concurred.

"Our investigators are repeatedly looking into reports of a suspicious nature," the commissioner explained. "Normally the only thing they produce is misjudgment on the part of players."

"The players are seen in the wrong places and perhaps talking to the wrong people. They are warned and normally that is the end of it."

Most of the NFL investigators are ex-FBI agents and are directed by league treasurer Austin Gunsel, a former FBI man himself. The probes' work has built up steadily in recent years because, as a league official put it, "The growth of the NFL has brought on a growth of interest and a growth of betting which have produced an increase of suspicious reports."

The only scandal to hit the NFL involved the 1966 championship playoff in New York, won by the favored Bears over the Giants 24-14. It evolved from a gambler's attempt to fix the game, with quarterback Frank Filchock and halfback Merle Hapes of the Giants the players implicated.

Neither player was charged with accepting a bribe, but both were accused of failing to report bribe offers. The late Bert Bell, then NFL commissioner, in a dramatic move only hours before game time, ruled Hapes out of the playoff but allowed Filchock to play because there was no evidence against him.

Both men subsequently were suspended by the NFL but were reinstated later. Filchock in 1950 and Hapes in 1954. They played and coached in Canada during and after their suspensions, and since have coached in the United States. Filchock also played briefly in the NFL after his reinstatement, with the Baltimore Colts in 1950.

Neenah, Kimberly Score Cage Wins

Papermakers Thwart Kaukauna's Upset Bid, 54-49, to Retain Share of Conference Lead

Kimberly — Kaukauna High School, threw a big scare into Kimberly Friday night, but the Papermakers came back in the closing minutes for a narrow and hard-earned 54-49 Mid-Eastern Conference victory.

With just over five minutes left in the game, the Ghosts whittled the Kimberly lead to three points to send the Kaukauna rooters into a frenzy.

Kimberly then hit a hot streak and dropped in six straight points, including a pair of clutch field goals by veteran Wes Vander Velden and pulled to a more comfortable 52-43 lead.

The Ghosts failed to give up, however as sophomore Gary Weigman dropped in a field goal. Bob Van Ellen converted on a pair of free throws and Tom Otte hit a long shot to make it 49-52 with 58 seconds to go.

Signals Frantically
On a jump-ball situation Coach Jerry Hopfensperger of the Ghosts frantically signalled for a time out but his cagers failed to see or hear him. The Papermakers got the tipoff and Dennis Kroner raced down-floor and dropped in a clinching layup and the 54-49 win. Kaukauna had two shots in the fading seconds but failed to connect.

It was a see-saw battle all the way with the lead changing hands nine times, and the score was tied on seven different occasions.

Through the early minutes of the first quarter, the Ghosts held the advantage. With 1:12 remaining in the first period Mark Vandey scored a bucket for Kimberly to tie the game at 10-10. Before the frame ended Kimberly had a 14-10 advantage as Jerry Wyngaard and Lee Levknecht scored.

Kaukauna rallied in the second quarter for 19 points while holding the Papermakers to 14. Van Ellen, the game's top scorer with 19 points, hit 10 markers for the Ghosts in the second period. The point margin gave the Ghosts a 29-28 halftime lead.

Kimberly took command midway in the third period when the Papermakers counted nine straight markers to move from a 35-34 deficit to a 43-35 lead. Kaukauna came back before the quarter ended to chop the lead to 43-38.

Van Ellen, in addition to taking game scoring honors with 19 points, played his best floor game of the season and got most of the Kaukauna rebounds. The Ghosts were hurt in the third period when Mike Andrews fouled out and Steve Hilgenberg also

was forced out in the fourth period.

Vander Velden was the top scorer for Kimberly with 18 points, and Levknecht followed with 16. Kimberly—49 Kaukauna—54

Two Rivers — Menasha threw a scare into co-Mid-Eastern Conference leader Two Rivers Friday night, but the Raiders rallied from an 8-point half-time deficit to hand the Bluejays their third loss of the season, 60-54.

Menasha surprised the Raiders with a reversal of its usual pressing tactics. The results were that Menasha out-rebounded the Raiders during the first half and left the floor with a 31-23 lead.

Two Rivers rebounded from its dead first half to knot the contest with 3 minutes remaining in the third frame. Phil Rehauer hit on a long set shot for the Raiders to be the score, 34-34.

The Bluejays still led after three quarters by one point, at 42-41, but Two Rivers took the lead at 46-44 early in the final frame and soon built up a 7-point lead.

Close The Gap
The marksmanship of Menasha's Tom Konkol and Phil Strong closed the gap to 56-54 with two minutes remaining in the game.

To protect its 2-point lead, the Purple Raiders chose to stall the clock out Rehauer and Jim Schroeder managed two points apiece in the closing minute to clinch the game for the hosts.

The teams each hit on 21 field goal attempts, but Two Rivers capitalized on better free-throw shooting to remain in strong contention for the M-E Conference title.

Schroeder and Rehauer led the Raiders with 14 points apiece, with Lee Spiering adding 13 Konkol hit on 16 points for Menasha. Strong pitched in 12 and Pat Kennedy 11.

Two Rivers also won the tight junior varsity game, 51-50. Menasha—54 Two Rivers—50

Bryant Files \$500,000 Suit Against Magazine and Writer

BIRMINGHAM, Ala. (AP) — Alabama Football Coach Paul Bryant filed a \$500,000 libel suit Friday on the ground he had been charged with condoning brutality by his players.

Targets of the U.S. District Court action are the Curtis Publishing Co. and Furman Bisher, sports editor of the Atlanta Journal.

Bryant sued because of a Bisher article in the Saturday Evening Post of Oct. 20, 1961, which mentioned Bryant and former Alabama halfback Darwin Holt prominently in an article on alleged brutality in college football.

Bryant's 1961 team, of which Holt was a member, won the national football championship. At the close of the season the nation's football coaches chose Bryant as coach of the year.

Facial Fracture
Bryant's suit alleges that the Bisher article accused him of condoning brutality, and accuses Bisher of misquoting Bryant in the aftermath of the injury of Georgia Tech halfback Chuck Graining in the 1961 Alabama-Tech game.

Graining suffered a facial fracture when he was blocked by Holt on a punt. Atlanta newspapers censured the Tide star strongly, and the incident then

Rockets Top Indians, Stay Tied for First

NEENAH—Neenah thrust back a determined third period challenge by Shawano and went on to scalp the Indians, 77-63, here Friday night. The victory assured the Rockets of a first-place tie while the setback knocked Shawano out of a share of the lead.

Except for a 5-4 deficit, the Rockets led all the way. They were enjoying a 15-point margin early in the third frame when the visitors came from nowhere and with two minutes left to play in the quarter had chopped the spread to six. The hosts, however,

er, then began to match their opponents basket for basket and never let the margin slip under six. They led, 55-47, going into the final segment.

The two clubs exchanged the first four baskets of the last quarter but at 39-51, little Gene Loughrin streaked down the court to intercept a Shawano throw and converted his theft into a goal and a few seconds later he scored on a drive-in to hoist the Rockets into a 63-51 lead.

17-Point Spread
After Shawano's brilliant Tom Wagner made two free throws, the Rockets canned a string of seven straight points to boost their advantage to 17, the widest of the night.

Neenah had led 18-9 at the end of the first period and 34-21 at halftime. But then came that third period which had as much or more action than any one frame played here in a long time.

The Indians authored 26 points; the Rockets 21. Unofficially, Neenah canned 10 of its 18 shots while Shawano made 13 of 20. There was hardly any letup in the action since only one free throw was attempted.

Score 37 Baskets
The Rockets' height and class was the deciding factor. A number of their 37 baskets came on tip-ins, some at the second and third swat at the ball. Their biggest failing was at the free throw line where they made only three of 11.

The most spectacular play was a behind-the-back pass from Dave Neubauer to Loughrin on the last break as both were going at top speed. Loughrin made the bucket.

Conference scoring leader Wagner led Shawano with 19 points, including 10 in the last quarter. He played outside much of the game and only aimed 13 shots at the basket, converting on seven.

8 in Double Digits
In all, eight of the 10 starters scored in the double digits. Kuehl led Neenah for the second week with 10 baskets, many on tips. Neubauer canned 18 points, also getting his entire output from the field. Dick Rogness tallied 17 before running into foul trouble early in the fourth quarter. Loughrin added 11. Ewalt Wollmerman only made four but rebounded well.

Tom Grover was Shawano's second high marksman with 15 points. Bob Grignon had 12 and Dave Arvold checked in with 10. Grignon missed all eight shots he took in the first half and the first one of the third period but he made four of the next six and then the Indians began to roll.

The Neenah jayvees broke into an 18-5 first period lead and wound up with a 37-32 triumph. Mike Casey and Bruce Menning had 12 and 11 points, respectively, for the winners.

The varsity box score:

| Player | FG | FT | Reb | Ass | Stk |

NCAA Battle Lines Drawn Firmer In Amateur Sports Struggle

BY DON WEISS
LOS ANGELES (AP)—The National Collegiate Athletic Association, its battle lines drawn firmer than ever in the amateur sports struggle with the Amateur Athletic Union, will take a close look in the next few days at the colleges' part in fund-raising for the Olympic Games.
"On the one hand, we and the high schools are being asked to go out and raise money for the

Bud Werner Captures Cup
Barbara Ferries Wins Women's Title in Colorado

VAIL, Colo. (AP)—Bud Werner, University of Colorado senior, captured the men's combined championship and Skiers Training Trust Cup at the first annual Olympic training camp Friday.
Werner, a veteran competitor from Steamboat Springs, Colo., sped the mile downhill Thursday in 61.1 seconds. He chopped almost a second off that Friday, breezing down the course in 60.3 seconds despite slower racing conditions caused by a three-inch feather snow which fell during the night and most of the morning.
Although the snow made the course slower, Werner said he was able to edge his skis into the fresh snow and carve better turns.
The combined results represent a compilation of scores from the downhill races Thursday and Friday.

Finishes Second
Dave Gorsuch of Climax, Colo., a student at Western, Colo. State College, finished second in the combined. Gorsuch was a member of the 1960 Olympic team. Bill Marolt, Colorado sophomore, finished third. He was a member of last year's International Ski Federation (FIS) team that competed in the world alpine championships at Chamouix, France.
Fourth was Roche Bush, Colorado senior from Jackson, Wyo., and Ni Orsi, a senior at Lincoln High School in Stockton, Calif., was fifth.
Barbara Ferries, Colorado freshman from Houghton, Mich., came from a fourth place finish Thursday to win the women's title. She beat the first day's leader, Linda Meyers, by 2.5 seconds in the combined runs. Miss Meyers, from Bishop, Calif., was second.
Jean Sautbert of Oregon State was third. Misses Ferries, Meyers and Sautbert were member of last year's FIS team.

New London, Appleton Grade Quintets Win

St. Paul of Appleton defeated St. Martin of Clintonville, 54-35, and Immanuel of Shawano, 37-26, here Friday night in Lutheran grade school tourney play.
Pace-setters for Appleton were Gerry Lutz with 19 points and Horrie Korth with 18. Lutz was also top rebounder for St. Paul.
By jumping off to a 10-point lead, St. Paul was never in danger for the rest of the game. Kersch was top man for Clintonville with 10 points.
New London center Linka hit for 10 points.
At 6 p.m. today, the New London and Appleton teams meet for January matches in the Clintonville and Shawano entries.

Crusade Bowl Set for Sunday In Baltimore

Jackson State Stars To Play in Fourth Bowl Game

BALTIMORE (AP)—While Richardson will be playing his fourth post-season football game in less than a month when he takes the field in the Crusade Bowl at Memorial Stadium Sunday.
The speedy end from Jackson State, Miss., College was named the most valuable player in both the North-South and All-America Bowl games of the past two weekends. He also played for Jackson State in the Orange Blossom Bowl.
"And we'll try to make it No. 3 for Willie," said Harry Gibner, assistant coach of the West team which will use Richardson at the split end position. "A lot of our passes will be aimed at him."

Can Fly
"He can really fly," Head Coach Norm Van Brocklin said of Richardson. "He has a good pair of hands and can hold onto the ball."
Richardson, a 192-pounder, says he has been timed at 9.8 seconds for the 100-yard dash, but is "slowed down" to 9.9 seconds while wearing football equipment.
Richardson, already signed to a National Football League contract by the Baltimore Colts, views the Crusade Bowl as the final chance to play against top notch competition and make personal contacts with coaches and players.
"As a result of playing in these post-season games," he said, "I think it will be easier for me to adjust when I report to the Colts."
A majority of the 46 players in Sunday's contest have been drafted by professional teams, and some have been signed to contracts. About a dozen others were by-passed in the draft, but still remain hopeful that an outstanding performance here will impress the pro scouts.

Smith Hopeful
Pete Smith, a quarterback from Michigan State, is in this category. "I'd like to give pro ball a shot," he said, mindful that Galen Hall was signed to a pro contract after starring in the U.S. Bowl last year.

Bill McPeak, coach of the East squad which includes Smith, also coached in the U.S. Bowl last year. After Hall's outstanding effort against his team, McPeak had the presence of mind to sign him for the Washington Redskins. "It could happen again," McPeak said. "Look what happened in the Rose Bowl this week."
He referred to the scramble by the pros for Wisconsin quarterback Vanderkelen after he passed for 401 yards against Southern California. Vanderkelen also was overlooked in the pro raft.

Underdog U. S. Junior Net Team Retains Crown

MIAMI BEACH, Fla. (AP)—An underdog United States team defeated Australia and retained the Orange Cup junior tennis title Thursday.
Mike Belkin of Miami Beach, U.S. junior lilloholder, and Charles Pasarell of Santurce, P.R. who although still a junior, won their singles matches. They defeated Australia's Geoffrey Pollard and Anthony Roche to sew up the 21-nation championship for the third straight year.
Belkin sent the United States ahead by defeating Pollard 6-1, 6-3, 7-5. Both juniors stayed on the baseline with the ball crossing the net 30 and 40 times frequently on a single point.
Pollard's net game, not too strong, was foiled totally by Belkin's accuracy from backcourt.
Pasarell found his game for the first time in this tourney as he defeated Roche 6-4, 7-5, 6-4. He broke Roche's service in the ninth game of the first set, then held at love to get the advantage.

Kimberly Jayvees Triumph, 44-23, Over Kaukauna

KIMBERLY — The Kimberly High School junior varsity puled up an early lead and cruised to a 44-23 victory over Kaukauna here Friday night.

Eight players figured in the Kimberly scoring, with Jim Vandenberg leading the way with 15 markers. Three players had five points each for Kaukauna as the Junior Ghosts failed to hit above eight points in any one period.

LeNoble Rips 277 Singleton In Kimberly

LENOBLE CRUTE — Francis LeNoble blasted a 277 singleton and a 684 series to lead the Fox Valley Knifing League at Little Chute Recreation.
Other lesser scores were hit by Chas Verbeten, 226, 686; Jerry Mignea, 684; Floyd Hamman, 345; Marty Jensen, 380; Les Utman, 576; Russ Huse, 579; Vic Jensen, 571; Don Carney, 588; Jack Lomera, 588, and Dave Austin, 552.

Manty Whips Terrors, Stays Tied for Lead

(Continued from Page 3)
went wild in the early minutes of the second quarter, widening the margin to 26 points (40-14).
It was then that AHS put on the brakes and began making a ball game of it. The Terrors chipped away at the deficit and trailed by 18 (48-30) at intermission time.

Trails By's
When Bock sparked the Terrors to a 12-3 point edge in the first 2:43 of the second half, visions of another of AHS' famed conference comeback began to form in the minds of AHS partisans. Appleton trailed by only nine (51-42) with 5:17 left in the third quarter.

The Ships, however, extinguished the Terror fire in a hurry, as they outscored the hosts, 13-4, in the next 2:45 to move out of reach at 64-46. Lehman scored four of his six third-quarter baskets in that short span.

AHS never stopped trying but was unable to put any kind of a dent into the Manty lead again. This was the sixth straight coaching win for John Jung over Dick Emanuel, and the first game in the streak that wasn't close. Three of the previous five wins were by 1-point margins, one by two points and the other by five. AHS' over all record for the season is 3-6.

Hawks, Lakers Score NBA Triumphs

NEW YORK (AP)—The closest thing to walking the plank that sports offers is the basketball coaching job of the St. Louis Hawks.
It is surprising therefore to see the occupant of this risky post not only smiling but predicting even better things to come.
"We've got a good shot at the Los Angeles Lakers," said Hawks coach, Harry Gallatin, today, after his team easily disposed of the Detroit Pistons 121-100 in a Madison Square Garden doubleheader Friday.
Zephyrs Lose
In the other game, the New York Knicks bombed the Chicago Zephyrs 129-108.
In other National Basketball Association action, Cincinnati blew a 17-point lead but climbed back to a 130-129 victory over the San Francisco Warriors in Cincinnati and the Los Angeles Lakers defeated the Boston Celtics 125-123 in the only other NBA game of the night. Frank Selvy scored 36 points for the winners.
The victory for the Hawks was their 25th of the year, against 16 losses, and left them within halting distance of the Lakers, the division leaders. The St. Louis club won only 29 games all last year.

Naturally that led to a coaching change. Hawks' owner Ben Kerner uses up coaches at a furious rate.
Oppose Outlawing
Boxing Writers Seek Better Regulation of the Sport
NEW YORK (AP)—The men who write about boxing have said the sport should be more closely regulated but should not be outlawed.
The Boxing Writers Association sent a four-page statement to the New York State Joint Legislative Committee on Professional Boxing, urging mandatory spacing of fights, additional examinations of boxers and better screening of officials.
"We have over the years revived a goodness in boxing," the statement said. "We deplore gangsterism and death and dishonesty, which does not mark us as men striking a singular posture."
"We seek with you a strengthening of boxing regulations and

They'll Do It Every Time

20,000 or More Expected Running May Hold Key to Hula Game

HONOLULU (AP)—The focus (South) and Rip Engle of Penn will be on passing but running State (North) have concentrated on passing in practice sessions. But both admit the talented runners on either side could break the game open.
Wisconsin's Ron Vanderkelen for the North and Texas Christian's Sonny Gibbs for the South are expected to throw long, short and often. Both put on sensational displays in earlier post-season games and are being counted on to do it again.
A near-capacity crowd of between 20,000 and 23,000 is expected at Honolulu Stadium for the 17th annual game.
Coaches Bill Barnes of UCLA

Casco Quintet Wins, 55-52, Over Freedom

CASCO — Casco High School rode the crest of a 22-point third quarter to hand Freedom a 55-52 non-conference setback here Friday night.
The Irish led by as much as nine points early in the third period, but Casco, led by center Jorgensen, tied the score with three minutes left and shortly after took the lead and never lost it.
Jorgensen topped Casco scorers with 16 points, with teammate Landwehr adding 13. Dave Krahn, of Freedom, led all scorers with 19 points.

Pond's Retains Triple A Lead

Rallies to Beat Conkey's; Runnerup Bleier's Also Wins
MAJOR AAA CAGE LEAGUE

| Team | W. | L. |
|----------|----|----|
| Pond's | 8 | 1 |
| Bleier's | 7 | 1 |
| Conkey's | 3 | 4 |

Pond's Sport Shop retained its hold on first place in the Major AAA Basketball League by defeating Conkey's, 66-56.
In other games, Bleier's Bar tripped up Rechner's, 76-51 and IPC downed Adler Brau, 67-50.
Pond's trailed, 26-26, at halftime but turned on the steam in the last two periods to win going away. Dick Emanuel paced the winners' scoring with 22 points and Ron Abel counted 16. Leigh Kanneman was high for Conkey's with 18 points.
Bleier's jumped off to an early lead over Rechner's and was never headed. The winners had a 54-32 lead after three quarters. Five cagers hit in the double figures for Bleier's with Claude Radtke leading the way with 18 points. Dennis Babb had 28 for the losers.
IPC outscored Adler Brau in every period and held a comfortable 27-17 edge at halftime. Warren Polman paced the victors with 21 points and Larry Gruenwald had 17. Dick Diedrich had 15 for the losers.

Junior Terrors Record Ninth Straight Win

The Appleton High School junior varsity basketball team turned back its co-runner-up Manitowish, 57-47, here Friday night to retain the Fox River Valley JV Conference lead.

APB opened a 20-10 halftime lead, and the visitors spent the rest of the game trying to catch up. Pat Gaudin hit five baskets in the second quarter and Neil Weber added three goals as Appleton pulled out of reach with a 20-0 scoring edge.

Gaudin and Weber were high for the game for the Junior Terrors, who are now 9-0 for conference play and 9-0 for the season. Jack Ploderer led Manitowish with 20 points.

William Russell Picked New State Conservationist

William W. Russell has been named state conservationist for the Soil Conservation Service, Madison, the U.S. Department of Agriculture announced.

Russell, acting State Conservationist since the death of Marvin F. Schroers in October, has been assistant state conservationist in Wisconsin since 1950.

He has been an employee of the Department of Agriculture since 1953. He worked with the Forest Service in Colorado, Arizona, and Missouri. He joined the Soil Conservation Service when it was created in 1935, and worked in Missouri, Illinois, and Michigan. He was Minnesota Assistant State Conservationist from 1953 to 1959.

Russell was born at Puchon, Colorado. He received a B.S. degree in forestry from Colorado State University and a M.S. degree in Conservation from the University of Michigan.

49ers Sign Pair Of 1961 'Future' Draft Selections

SAN FRANCISCO (AP) — The San Francisco 49ers signed two 1961 future draft choices today, one of whom played little college football this year.

They are Notre Dame fullback Mike Lind, out much of the season with a knee injury after averaging 5.2 yards per carry his junior year, and halfback-quarterback Rodger McFarland of Kansas, who accounted for 718 yards this year.

Lind was picked No. 5. McFarland No. 22.

Eddie Arcaro's Father Dies

COVINGTON, Ky. (AP) — Pasquale (Pat) Arcaro, who never missed an opportunity to declare proudly, "I'm Eddie Arcaro's father," died Thursday at his home in Garden City, N.Y. He was 69.

At his bedside was his famous son, money-winningest-jockey of all time and the only man ever to ride five Kentucky Derby winners.

Mike Ryba Named Manager of Reds' Cedar Rapids Club

CINCINNATI (AP) — Former baseball jack-of-all-trades Mike Ryba will manage Cedar Rapids in the Class A Midwest League in 1963. Farm Director Phil Seghi of the Cincinnati Reds said Thursday.

Ryba, who became a Reds' scout in 1959, played for the St. Louis Cardinals from 1933 through 1938 and for the Boston Red Sox from 1941 to 1946. He saw action at various times as infielder, outfielder, catcher and pitcher and added scouting and farm team managing to his list of accomplishments in the late 1940's.

The teams managed by Ryba included Lynn, Scranton, Louisville and York.

Report Sled Stolen

Gordon Luebbe, 804 E. Pacific St., reported to police a sled was missing from his home. Also missing are eight porch decorative lights. Luebbe reported the loss to police Friday.

Obituaries

Frederick W. Axley
3823 Sunset Drive
Shorewood Hills, Wis.
Age 51, passed away Friday at a local nursing home in Shorewood Hills. He was born May 21, 1890 in the town of Menominee, Manitowish County. He was a former educator, he was a school teacher and principal at Seymour Normal School for 20 years; a clerk of the school board for 18 years; chairman of the Seymour Library Board; a member of the Old Fellows Lodge; for many years Secretary of the Farmers Equity Co-op; a Superintendent of the Sunday School and a Deacon of the First Congregational Church, Seymour. He was at one time a member of the Board of the Outagamie County Normal School, Kaukauna. He was a graduate of Oshkosh Normal School and the University of Wisconsin in 1920. Mr. Axley is survived by one daughter, Mrs. Cedric Dittmer, Skokie, Ill.; two sons, Frederick R. Chicago, Ralph E. Shorewood Hills, Wis.; one sister, Mrs. Ira Wolff, Sheboygan; 5 grandchildren and 5 great-grandchildren. Funeral services will be held at 10 a.m. Monday from the Most Precious Blood Catholic Church with burial in the parish cemetery. The Very Rev. Andrew Linneberger will officiate. Friends may call at the Kircher Funeral Home, New London, after 8 a.m. Sunday until the hour of the service. Senior Sodality rosary will be prayed at 3 p.m. Sunday with the parish rosary at 8 p.m. Sunday.

George C. Glasenapp

Rt. 1, New London
Age 55, passed away at 8:10 p.m. Friday at a local hospital after a lingering illness. He was born March 19, 1907 in New London and lived in this area his entire life. He was employed at the Edison Industries, and a member of the Emmanuel Lutheran Church, New London. Mr. Glasenapp is survived by his wife, four daughters, Anita, Nancy, Judith and Betty; one son, Frederick, all at home; four brothers, Dorance and Arthur, Milwaukee; Alvin, West Allis; Louis, Arkansas; two sisters, Mrs. Elmer Heine and Mrs. Darold Tousey, both of Milwaukee. Funeral services will be held at 2 p.m. Tuesday from the Emmanuel Lutheran Church, New London, with Rev. W. E. Pankow officiating. Burial will be in the parish cemetery in the Town of Lebanon. Friends may call at the Kircher Funeral Home, New London, after 2 p.m. Monday until 10 a.m. Tuesday and then at the church until the hour of the service.

Mrs. Roberta V. Cochran

Willard, Missouri
Age 88, passed away at 12 noon Friday after a 5 month illness. She was born March 8, 1874 in Bolivar, Mo. She was a member of the Willard Baptist Church, Mo., and has been making her winter home with her daughter, Mrs. W. Clay Cloud, Appleton. In addition to Mrs. Cloud she is survived by one son, Hugh L. Waynesville, Mo.; seven grandchildren, and 8 great-grandchildren. Friends may call at the Wichmann Funeral Home from 2 to 5 p.m. Sunday. Funeral services will be held at 2 p.m. Wednesday from the Greenwald Funeral Home, Willard, Mo.

Mrs. Edward Fielding

414 E. Washington St., New London
Age 70, passed away at 10:45 p.m. Friday at a local hospital suddenly of a heart attack. She was born July 19, 1892 in Northport, and had been a resident in the New London Community for the past 19 years. She was a member of the Most Precious Blood

Cab and Wire Quints Stay Tied for Lead

Fox Valley Cab and Wisconsin Wire remained tied for first place in the Major AA Basketball League as each recorded victories in latest action.

Fox Valley Cab downed Sammy's Pizza, 34-48; Wisconsin Wire defeated Fontaine Lumber, 63-41; Mullin's tripped Katura Electric, 66-44 and Singer Sewing beat IPC, 66-35.

Chuck Steenis had 24 points for Fox Valley Cab against Sammy's while four players hit in the double figures for Wisconsin Wire.

Bill Graves scored 11 field goals and a free throw to lead Singer over IPC. Nelezen counted 13 buckets and a charity toss for Mullin's against Katura Electric.

Commissioner Says Personnel Bureau Figures are in Error

Three errors occurred in a Thursday Post-Crescent article on Outagamie County highway department employees. Highway Commissioner Clarence Brownson said today.

State Bureau of Personnel statistics quoted in the article say the department has 67 employees. The highway department really has 97 employees, Brownson said.

Also, Brownson said the figure listing the administrative assistant's maximum base salary at \$440 is wrong. The Bureau of Personnel gives the salary range as \$350 to \$440, instead of the correct figure of \$350 to \$400.

The third error was the salary listed for a patrolman's helper. Bureau of Personnel figures said the hourly range is between \$1.85 and \$2.01 from May through November, and between \$2.14 and \$2.30 from November through May. Actually, it should be \$1.95 to \$2.13 from November and May, Brownson said.

Green Bay Cheese

GREEN BAY (AP) — An immediate offer of one car state brand pasteurized single daisies at 30¢ cents at the opening remained uncovered at the close of the Wisconsin cheese exchange Friday.

Bids for one car state brand cheddar at 34¢ and one car state brand 48 pound block at 34¢ were left unfilled at close of trading.

Deducting Personal Costs Helped Hike Standards of Many

Rule Changes Allow Costs Which Are of Business Nature Only

BY STERLING F. GREEN
WASHINGTON (AP) — Many Americans have raised their standard of living—and drinking and playing — by deducting personal outlays as business expenses.

But the government changed the rules as of Jan. 1 with an income tax regulation that demands solid substantiation of all claims for business entertainment, gifts and travel.

The spillover of 97th Congress declared, in effect, that the Treasury will no longer absorb bar matters need not be told in the expense diary, so long as they are recorded and kept available to revenue agents on demand.

3 If there are a number of business guests, not all need to be named. A satisfactory entry might read like this:

"June 10, 1963—Lunch, cocktails and tip, \$62.50; Milford Cafe, Bridgeport; for T. L. Young, sales manager, Anchor Distributing Co., and his force of 8 salesmen; to discuss promotion of new line of luggage."

Since any single expenditure of \$25 or more calls for a receipt or voucher, IRS has had to offer some advice on what constitutes one expenditure. These may be helpful.

A dinner followed by a theater party would be two expenditures. Two rounds of drinks in a cocktail lounge would be one expenditure, even if paid for separately.

Drinks in a cocktail lounge, followed by dinner in a dining room, would be two expenditures. Drinks and dinner at the dining table would be one expenditure.

Over \$25

The tip can be included in the charge for meal or drinks, for record-keeping purposes. But if this would put the bill over the \$25 limit, the tip can be noted separately.

The rules for recording business gifts are similar, in general, except that no receipts are ever needed. That's because Congress allowed no deduction at all for gifts exceeding \$25 to one person in one year.

The names of gift recipients can be left out of the diary if the presents are inexpensive—like tickets to a high school football game—and distributed to a number of persons.

Special rules have been written to curb abuses arising from the entertainment use of what IRS calls entertainment "facilities." The term covers dues paid to private clubs, the rental of hotel suites, and the costs of maintaining yachts, swimming pools, beach cottages or hunting lodges.

Many taxpayers have taken deductions for part of these costs because they were used for business entertaining. Henceforth, no deduction is allowed unless 51 per cent or more of the use is for business purposes.

To substantiate the 51 per cent rule, the taxpayer must show in his day-by-day expense diary not only the business entertaining done, but also each use by the taxpayer himself or members of his family.

Family Use

Whenever his wife plays bridge at the country club or the children go swimming in the pool, a dren go swimming in the pool, a use" or "personal use." It would be simpler, some businessmen feel, to quit trying to claim the deduction—or give up the membership.

Having established the proportion of business to family use the taxpayer may claim a deduction only the percentage of his dues which represents his business use of the club.

IRS offers one shred of comfort for the unhappy men in gray flannel: "The business lunch" apparently will survive.

This institution honored by big and little businessmen from Seattle to Schenectady, would be doomed under an inflexible rule that entertainment must be tied to a direct business purpose.

But Congress left an escape hatch for the millions of businessmen who grab the check day after day just for the sake of "business goodwill" or "keeping up contacts."

The law lets IRS make exceptions for business meals when the circumstances "are of a type generally conducive to a business discussion." All that remains is for Caplin to decide what kind of luncheon atmosphere is conducive to talking business instead of baseball—or taxes.

Tax Status

The tax status of wives will be clarified, IRS promises, in further regulations due next month. None too soon, it would appear, for Caplin already has been accused in official hearings of fostering "moral decay."

The basic rules are clear, however—painfully so to those ready spenders who didn't need big bankrolls because they had fat expense accounts.

Deductions are allowed for a meal or other entertainment which directly precedes or follows a substantial and bona fide business discussion. Every such outlay must be entered in the taxpayer's expense diary. If it comes to \$25 or more, a receipt or voucher must be kept.

The diary entry must show the amount spent, the date, the name and location of the place, the kind of entertainment, the business reason for the entertaining, and this additional set of facts:

The name of each person entertained, as well as his title or other designation sufficient to establish a business relationship with the taxpayer.

Exceptions Noted

These exceptions are noted:

1. Other guests need not be named, if they have no business connection. IRS will spell out, in a future regulation, how to figure the deductible portion of the cost.

2. Company secrets or classified

Resurfacing of State 114 To be Delayed Two Years

MENASHA — It will be at least two years before a section of State 114 along Old Plank Road is resurfaced, Bruno Haas, city engineer, said today.

Haas said the city in November requested the road be resurfaced. The District Three office of the Highway commission in Green Bay replied the project will not be scheduled at least two years and perhaps more.

The city will provide normal maintenance until the highway is resurfaced, Haas said.

The highway, constructed in the late 1930's, has never been resurfaced since it was built, according to the engineer.

Haas said the road "definitely

Village Schools Get Tax Advances

Hortonville Board OKs Transfer Of \$15,000 From 1962 Receipts

HORTONVILLE — Village schools were given advances totaling \$65,000 by the village board Thursday night. The advances include \$60,000 for the high school and \$5,000 for the elementary school and were taken from 1962 tax receipts.

Village attorney Kallard Lathrop was instructed by the board to draft an order authorizing the transfer of the money from the 1962 receipts to the village fund.

Discussion about the wayside park, east of the village, again came before the board. A question was asked whether the county has accepted the title to the property given for the wayside. Lathrop was instructed to investigate the delay in construction of the wayside.

Discuss Planning
Formation of a planning commission was discussed. Duties of the commission would be official mapping, land use and layout of future streets. A manual obtained from the state was used as a basis for discussion. No action was taken.

The board thanked the Outagamie County Highway Commission for the assistance given the village when a village-owned tractor went through the ice on Black Otter Lake. The county dispatched a wrecker to pull the tractor from the water.

Hortonville Realty, 115 W. Main St., was issued a permit to remodel its office.

Board members discussed forming an adult band. President Ray Warner said there is interest in the group. High school band director Ernest Broeniman has agreed to direct such a band, Warner said. The board agreed.

Army Hospital Gets Doctor

New Man Replaces Retired Physician On Regular Staff

WAUPACA — Dr. H. G. McGinnis started as staff physician at the Grand Army Home hospital Dec. 28, replacing Dr. James H. Murphy, who retired, announced John S. Drayna, commandant.

Dr. McGinnis spent 19 years as physician at Southern Colony Union Grove, after leaving the State Home and Training School, Coldwater, Mich. He was with the Civilian Conservation Corps from 1935 to 1937 and again in 1940 and 1941. He was with Indian Field Service in 1938 and 1939.

He received his doctorate degree in medicine from Marquette University and interned at St. Mary Hospital, Milwaukee.

Dr. and Mrs. McGinnis and their two children are residing at the Grand Army Home.

Annual Church Meeting

AMHERST — The annual congregational meeting of the Amherst Evangelical Lutheran Church will be at 8 p.m. Tuesday.

The Nelsonville Church will have its annual meeting at 8 p.m. Jan. 21.

North Central Determining Origins of All Passengers

Appleton Divided Into Quarters For Survey Conducted by Airlines

Passengers on North Central flight were asked to list their home towns in passenger origin surveys conducted by the airline for the Civil Aeronautics Board.

In the survey, Appleton was divided into four sections.

North Central conducted the two surveys between Nov. 1 and 30, and from Dec. 1 to 14, in response to a directive from the CAB.

The information gathered in the studies will be used by the CAB and participating municipalities at the regional airline stop hearings, scheduled in January, on whether the cities can be served by joint airports. The survey is scheduled to be released Jan. 9.

In the first survey, five questions were asked of passengers boarding North Central flights at the airports in Appleton, Oshkosh, Green Bay, Clintonville and other cities.

Four Quarters

The survey was administered by North Central personnel and told passengers to put a mark in the name of an Appleton map indicating where the passenger lived.

The four Appleton sections on the map were northwest, northeast, southeast and southwest sections formed by bisecting the city at College Avenue and at Oneida Street. At the end of the study all the marks in each section were counted.

David Moran, assistant to the president of North Central, explained today that the city was divided into sections in order to

The Annual Roman Banquet is being planned by the Waupaca High School Latin Club. The meal is served in traditional style with first year members serving as "slaves." Officers, from left, are Rheta Sorensen, president, Mary Braatz, treasurer, Violet Jorgensen, secretary, and Kathy Doyle, vice president. (Post-Crescent Photo)

Outagamie Low in Amount of Fringe Benefits to Employees

County in Lower 18 Per Cent of Counties, State Survey Shows

BY DICK LYNEIS
Post-Crescent Staff Writer

Data supplied by the Bureau of Personnel of the State Department of Administration indicates that Outagamie County provides fewer fringe benefits than some other counties.

Whether the figures indicate that Outagamie County "lags" or not is, however, a matter of individual opinion.

For example, Outagamie County, like Winnebago County, is in the lower 18 per cent in the number of paid holidays given by the state's 72 counties.

Both Winnebago and Outagamie allow six paid holidays—Christmas, New Year's Day, Memorial Day, Independence Day, Labor Day and Thanksgiving. Waupaca allows the same six, plus Washington's Birthday and Veterans' Day.

Calumet County is in the upper third when it comes to holidays. In addition to the basic six, Calumet allows three weeks

after 15 years, two weeks after 10 years, and a single week after one year. Winnebago gives three weeks after 10 years, and two after one year.

Waupaca County employees are allowed two weeks after five years, and one week after a year. Calumet County gives only one vacation category — two weeks after one year.

Two counties go as high as four weeks — Milwaukee and Oneida counties. In Milwaukee it's after 20 years, while in Oneida it's 25.

Twenty-one of the state's counties do not allow sick leave time, but of the ones that do, Waupaca is top. Up to 30 days of sick leave can be earned in any given year.

The average amount in a year for the counties which allow sick leave is 10 to 12 days, with two as high as 15.

Near Bottom

Outagamie County is near the bottom of the list with six days per year and a maximum accumulation of 60 days. Winnebago County also allows a maximum accumulation of 60 days, but gives seven days in a year.

Thirty-eight, or about half the counties in the state have some type of overtime compensation practice including straight time, time and a half and compensatory time off.

Outagamie, Waupaca and Winnebago counties all give employees straight time for overtime hours. Calumet County is one of the 34 in the state with no type of overtime compensation.

In the field of medical insurance, only two counties, Wood and Kewaunee, have no program. Outagamie County has hospitalization, medical and surgical insurance with the county and the employees sharing the cost on a 50-50 basis, but has no major medical or group life insurance program available. Winnebago County is the same as Outagamie now, but after Jan. 1 will pick up the full tab on its basic medical insurance plan.

Waupaca County has no regular medical insurance program

Fifth of a Series

met allows Lincoln's Birthday, Columbus (or Landing) Day, Washington's Birthday and Veterans' Day.

Leading the state in this category is Burnett County with 12. The counties with the least number are Manitowoc and Wood with five.

Vacations Given
With the exception of a handful of counties, practically all counties give two weeks paid vacation after varying years of employment.

However, only 23 counties in the state allow three or more weeks of paid vacation. Winnebago and Outagamie counties are two of the 23.

Outagamie allows three weeks

26 Register For Skiing At Chilton

CHILTON — A total of 26 Chilton area residents have signed up for the ski school that begins Sunday at Calumet County Park.

Persons participating in the program will receive instructions on the park slope given by instructors from the Fox Valley Ski Club patrol.

Participants will meet at the shelter house at 1 p.m. A second training session is scheduled for Jan. 13.

The beginner skiers who sought rental equipment have been asked to pick up the equipment at the 619 Park St. home of John Freidel. Freidel, physical education instructor at Chilton High School, arranged the program.

Sen. Proxmire To Speak at Award Event

Outstanding Young Man to be Chosen At Neenah Dinner

NEENAH — Sen. William Proxmire, now Wisconsin's senior senator, will speak at the 24th annual Distinguished Service Award banquet sponsored by the Neenah-Menasha Junior Chamber of Commerce.

The dinner is scheduled at 6:30 p.m. Jan. 28 at the Neenah Eagles hall. It is open to the public and tickets may be obtained by contacting Robert Mattson 153 Lorraine Ave., Neenah.

The outstanding young man of the Twin City community will be recognized as the "Man of the Year" at the dinner. Men between the ages of 21 and 35 are eligible for the award. The deadline for nominations for the Jaycee award is midnight, Jan. 18.

Nominating forms may be obtained from E. J. Kiefer, 656 Hansen St., Neenah. The decision of the judges, who are selected from civic leaders in the community, will be announced at the banquet.

In addition, the Jaycees honor three outstanding high school students at the dinner. Kiefer is general chairman of the DSA program. Warren Peltier, Jaycee president, also announced that Aaron Gettel is serving as chairman of the selection committee.

Gene Condon as chairman of the high school awards committee, and Michael C. Sacher and Jay Jabas are publicity co-chairmen.

Methodist Women Attend Meeting At New London

NEW LONDON — Mrs. Vernon Morack was in charge of the program when members of the WSCS of the First Methodist Church met at 8 p.m. Thursday in the church parlors.

She was assisted by Mrs. Raymond Pahl, Mrs. Stanley Ziemer, Mrs. Henry Miles Sr., Mrs. Wayne Poppy, Mrs. John Stein Jr., Mrs. William Sagar and Mrs. Doris Pribbenow. Mrs. Al Huettner was in charge of the worship service.

The executive committee of the society will meet at 7:30 p.m. Jan. 14 in the church. The study class will meet Jan. 15 at 9 a.m. at the home of Mrs. Leslie Lowell, Beacon Avenue. The class is studying the book "Who Cares."

The next meeting of the organization will be Feb. 7 with Mrs. L. K. Thomas and Mrs. Pribbenow in charge of the program. The Lydia Circle will be the hostesses.

Holiday in Pasadena

BLACK CREEK — Bonnie and Marie Van Straten, daughters of Mr. and Mrs. Glen Van Straten, spent their holiday vacation in Pasadena, California, where they attended the Rose Parade and the football game on New Year's Day. Bonnie is a speech correctionist in Clinton, Iowa, and Marie is a junior in education at the University of Wisconsin.

Lakeland Band Plans New London Concert

NEW LONDON — The Lakeland College Concert Band will present a program at the Washington High School auditorium at 9 a.m. Monday.

The program will be open to the public, Raymond Langley, principal, said.

Following the New London program the band will go to Weyauwega where it will present a program at the high school there.

75th Appleton Resident Draws Election Papers

Gregory A. Schulte, 924 E. Atlantic St., today became the 75th Appleton resident to take out nomination papers for the spring election.

Schulte, an accountant, obtained papers for the board of education. One resident already has filed and is a candidate for school board, while five others are still circulating nomination papers.

Terms of three school commissioners expire in the spring. Board members serve three-year terms and receive no pay.

Appleton residents interested in running for any of the 10 common council, 11 county supervisor and three school board posts that will be filled have until Jan. 29 to file nomination papers at the office of City Clerk Elden Broehm at the city hall.

Aldermen get paid \$1,200 a year, plus expenses when out of the city on municipal business. County board members receive \$14 per meeting, including committee sessions.

Two incumbents, one an alderman and the other a supervisor, have already announced their intentions not to seek re-election.

Waupaca Accepts \$2,132 Bid for Five Squad Cars

County Buys One Less Due to Elimination of Full-Time Deputy

WAUPACA — The county law enforcement committee Thursday night accepted a \$2,132.00 bid of T-topped Chevrolet, Inc., Clintonville, to furnish five new county police cars.

The new cars are police specials. The bid, low of three, includes the trading of six county cars. The reduction of one squad car was due to the county board's decision to do away with the position of full-time deputy.

John Bonnell, former full-time deputy, started as a county patrolman Jan. 1. Undersheriff George Meeking, New London, who was named the other county policeman, is serving as sheriff since Sheriff Ray Abrahamson vacated the office late in November.

Vacancies in the county police department were created by the election of Sgt. Lorin Frazier, Manawa, as sheriff and his appointment of county patrolman William Mork, Scandinavia, as undersheriff.

Edward R. Macklin, acting district attorney, was asked by the law enforcement committee to prepare an outline of the committee's jurisdiction.

Atty. Macklin also presented a written opinion on the legality of accepting Bonnell's application

Crash Victim Stranded in Cold, Injured

CLINTONVILLE — A rural Manawa man suffered exposure, received a broken leg, possible back injuries and possible frozen feet after being stranded in the cold for more than an hour following a one-car accident near here Friday.

Robert Thurk, 40, route 2, Manawa, was taken to Iowa Hospital, Waupaca County police said Thurk was traveling west toward Symco when his auto missed a curve near the old Dellwood School. They said his car rolled side over side.

Thurk was found by a passing motorist at about 2:45 a.m. The accident occurred between 1 and 1:30 a.m.

Marriage Rate Drops In Calumet

CHILTON — Births and deaths both increased in Calumet County during 1962 but the number of marriages dropped significantly, a vital statistics report compiled by Register of Deeds Germaine L. Hume, shows.

There were 179 marriages performed in the county during 1961 compared with only 150 last year, a drop of 29.

Births increased sharply. A total of 725 were recorded last year. This is 96 more than the 629 listed in 1961. Deaths also increased but only moderately. In 1961, 187 persons died in the county compared with 191 last year.

Mrs. Hume's office also recorded 2,485 legal documents in 1962 compared with 2,331 in 1961. The number of chattel mortgages filed last year, 2,639, is down substantially from the 3,346 filed in 1961. Chattel mortgage satisfactions filed last year totaled 1,052 compared with 943 the previous year.

Mrs. Hume's office also recorded 2,485 legal documents in 1962 compared with 2,331 in 1961. The number of chattel mortgages filed last year, 2,639, is down substantially from the 3,346 filed in 1961. Chattel mortgage satisfactions filed last year totaled 1,052 compared with 943 the previous year.

Drivers Uninjured In Auto Accident Near Sherwood

CHILTON — A town road intersection with State 55 about five miles north of Sherwood was the scene of an accident about 2 p.m. Wednesday involving cars driven by Peter Hartzheim, 77, route 4, Appleton, and Carl N. Greimer, 35, route 2, Kaukauna.

According to statements given to county police, both vehicles were southbound on the highway when Hartzheim turned toward the centerline before making a right turn. Greimer, according to police, thought Hartzheim was about to turn left and passed on the right side with the collision resulting.

They escaped injury.

Second Semester Class In Geography Slated

CLINTONVILLE — A second semester for a three credit extension course, geography 129, a topical and regional analysis of South America, will begin at 6:30 p.m. Jan. 29 at Clintonville High School.

Prof. A. Anderson, Stevens Point State College, will be the instructor. The cost will be \$21.50, payable at the second meeting.

Board Plans Talks on Shuttle Bus Service

Proposal Would Bring Students From Fremont to Weyauwega for Athletic Events

WEYAUWEGA — A plan to operate a shuttle bus between Fremont and Weyauwega for high school students who want to attend athletic events will be presented to the Weyauwega high school board of education by superintendent H. James Ramsdel when the board meets Monday night.

Ramsdel said students of the Fremont area attend high school in Weyauwega and the bus service would pick up the students at a central point and then return them after the games. This would not only promote more attendance at the games, but would also be safer for the students by cutting down on the use of cars by the students to get to the games, he said.

Last Agenda
The board will also discuss insurance, the painting of a hallway and the purchase of a new school bus. The bus will replace one of the seven buses now in use by the high school.

A date for the dedication of the high school addition is also expected to be set at the meeting, Ramsdel said.

The board is also expected to act on a request from the KFO

Chilton Unit Completes \$100 Pledge

CHILTON — The Chilton American Legion Auxiliary Thursday night completed its pledge to the Calumet Memorial Hospital building fund.

Members approved an \$88 check which was turned over to the fund. The group earlier pledged \$100 and paid \$12 upon making the pledge.

Early planning for the 1963 holiday program was launched when it was decided to secure towels and pillow cases which will be given to the Wood Hospital gift shop after members finish the home with members.

In charge of the social hour were Mrs. Norman Pfister, Mrs. Al Lewman, Mrs. Edna Meeley and Mrs. Walter Oelg.

The City of Clintonville took delivery of an Eagle chipping machine from the Utility Tool and Body Co., Clintonville. The machine's first use will be to cut Christmas trees. With the machine are Fred Shaffer, general manager of Utility Tool and Body Co., Elmer Anderson, street commissioner, who is "feeding" a tree into the machine and Basil Arvey, director of public works for the city. (Laib Photo)

Weyauwega Five Takes CW Lead as I-S Tips Wautoma

Thunderbirds Score 53-51 Upset Win; Indians Beat Waupaca

CENTRAL WISCONSIN CONFERENCE

| | | | |
|-----------|---|---|---|
| Weyauwega | 7 | 1 | 1 |
| Wautoma | 1 | 1 | 1 |
| Waupaca | 1 | 1 | 1 |
| Wausau | 1 | 1 | 1 |
| Wauson | 1 | 1 | 1 |
| Wauson | 1 | 1 | 1 |

Two clutch free throws by John Gjertson enabled upstart Iola-Scandinavia to pull the biggest surprise of Central Wisconsin Conference action to date as it handed previously unbeaten Wautoma its first defeat, 53-51, Friday night.

The loss enabled defending champion Weyauwega, a 67-62 conquerer of Waupaca, to move into first place.

At the outset of the I-S-Wautoma battle, the Thunderbirds gave little indication of things to come, as they fell behind, 16-9, at the quarter and still trailed, 26-20, at half-time.

Heading into the third period, I-S went at it with a vengeance as it clicked for 21 points, while limiting Wautoma to 11, to take a 41-37 advantage into the home stretch.

Toma came roaring back in the final period and, with 40 left, tied the count at 51-all.

With the Thunderbirds controlling the ball for one final shot, Gjertson drew a foul with :03 remaining, setting the stage for his game-winning heroics.

He also led both teams in scoring with 16 points. Jerry Caswell was high for the losers with 14.

Waupaca Scores 'Wega

Waupaca threw a scare into Weyauwega before dropping a nip-and-tuck scrap, 67-62. The fired-up Cornets led at half-time and were still ahead by as much as six points midway through the third period.

Led by Harold Barker and Jack Wohlt, the Indians went on a 23-point spree in the final segment to pull out the victory.

Barker and Wohlt paced the winners with 18 and 12 points, respectively. Gary Johannkecht with 21 markers and Dave Peterson with 15 were the big guns for the Cornets.

In other conference action, Manawa nipped Marion, 65-64, and Wittenberg dumped Bonduel, 68-54.

The Pigeons stormed from eight points down in the closing period to close the gap on Manawa at

Clintonville WSWs Hears Reading of New Year Thoughts

CLINTONVILLE — The Women's Society of World Service of Salem Evangelical United Brethren Church met Thursday.

Mrs. Robert Schumann and Mrs. Cecil Buckbee were hostesses for a desert-coffee before the meeting.

Mrs. Lloyd Pernot, president, gave a reading, "Thoughts for the New Year." Mrs. William Boese and Mrs. Herbert Steege gave devotions.

The bandage rolling group will meet at 2 p.m. Tuesday at the home of Mrs. Arthur Below, 74 Waupaca St.

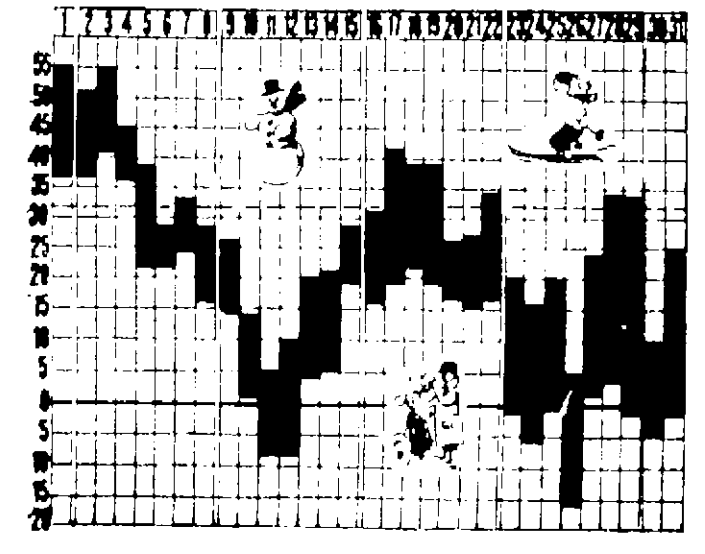

December Temperatures

High, Low Weather Records Shattered

Unseasonably warm weather accumulated total since Sept. 1 of 2,865. Normal figures are 1,310 and 2,840, respectively.

At the end of December, weather at the end of December, and shattered daily high and low records.

The warm trend lasted until Dec. 4, with temperatures of 55 inches, began at 7 p.m. Christmas.

on the first and third breaking max morning Normal snowfall old record high for those dates for December is 8.3 inches. A high of 51 Dec 2 tied the old record reading for that date.

By Dec. 11 the thermometer had dropped to 8 below, tying the previous record low for the date. Cold remained for the rest of the month, with only six days above the freezing mark and nine below zero.

A low of 16 below Dec. 26 set a new record for the date, and was only three degrees short of tying the record low for the month, 19 below.

There were 1,396 heating degree days during December, for

Planning Chief To be Sought By Commission

Personnel Committee Given Authority to Advise for Man

Applications for a planning director will be solicited soon by the personnel committee of the Fox Valley Regional Planning Commission.

The committee received authority Friday from the commission's executive committee to advertise for a director.

Personnel committees will meet to draw up job specifications and education and experience requirements as soon as Chairman Arthur Lecker calls a meeting.

Salary Flexible

Although the executive group thought the salary would have to be flexible, depending on how qualified a man can be hired, there is \$8,500 in this year's budget for a director. There is another \$7,000 in the budget for another planner, but that man may not be hired immediately.

It is necessary to hire a planning director because the contract with Kenneth L. Schellie and Associates, Indianapolis, the former full-time consultants, expired Dec. 31.

Continues Work

Charles Zahn, a Schellie employee and resident planner under the three-year contract, is continuing work here during the transition to a locally staffed operation.

The last Schellie report, a comprehensive plan for the entire region, is due in a short time. Capital improvements plans for communities which requested them should be delivered soon, Zahn said.

Personnel committee members in addition to Lecker are Mayor John L. Klein of Menasha, Donald W. Colburn, Neenah, Alvin Fulmer, Kimberly village president, and Daniel J. Williams, Combined Locks village president.

YW Book Review

NEENAH — Mrs. Frank Hirst will review "Spencer's Mountain" by Earl Hanner Jr. at the 1:30 p.m. Tuesday program of the YWCA Book Review Club at the Y.

Serve 2-Year Terms

St. Martin Ladies Aid Elects 1963 Officers

CLINTONVILLE — St. Martin Ladies Aid elected officers to 2-year terms Thursday afternoon. They will be installed at the Feb. 7 meeting.

Elected were Mrs. Oscar Burrow, president; Mrs. Arthur W. Neufeld, vice president; Mrs. Lowell Kurb, secretary, and Mrs. Lester Thies, treasurer.

Eighty-five members attended the meeting opened with the singing of "Thou Whose Almighty Word." The Rev. Donald Biesler, pastor, spoke on a topic from the Book of Jonah.

Mrs. August Westphal and Mrs. Arthur Schnorr were appointed to the auditing committee. Mrs. Mack reported on Lutheran Women's quarterly.

Ladies Aid members will serve refreshments Sunday night after the installation service for the Rev. William R. Christian.

Plan Fisheree On Fremont Lake

FREMONT — A fisheree will be held Jan. 13 on Lake Partridge, according to Pershing Cox, chairman. A storm date has been set for Jan. 20.

A 12 gauge shotgun, a pair of field glasses and a rod and reel are among prizes to be awarded by the Fremont Chamber of Commerce.

Registration is from 9 a.m. to 3 p.m. Jan. 13. Tickets are being pre-sold.

Leonard Rowen, Clayton Looker, Dale Ludtke, Walter Brey and Arthur Hahn are assisting Cox.

Auxiliary to Meet

CLINTONVILLE — The St. Martin Lutheran School auxiliary will meet at 8 p.m. Monday in the church parlors.

Little Miss 1963 at Calumet Memorial Hospital, Chilton, was Barbie Ann Stemper, daughter of Mr. and Mrs. Lloyd Stemper, route 1, Elkhart Lake. The first baby of the new year, weighing six pounds, 13 ounces, was born at 10:40 p.m. Jan. 1. She will be given gifts valued at more than \$70 by Chilton merchants. (Post-Crescent Photo)

North Central Use Shows 400 Pct. Hike

Outagamie Port Increase Noted Since Service Started in 1959

Passenger traffic originating from the Outagamie County Airport since North Central Airlines service began 42 months ago has increased by about 400 per cent.

In a report comparing every month from July of 1959 to December of 1962, Herman R. Goltz, station manager for North Central at the Outagamie County airport, has revealed huge gains in four revenue traffic categories — passengers, air mail, air express and air freight.

Annual totals show in 1959 the county airport had 1,477 passengers. The number increased to 5,745 in 1960, 9,951 in 1961, and 5,792 in 1962.

Air mail has gone up from 3,211 pounds in 1959 to 18,210 pounds in 1962. In 1960 the figure was 8,469 and in 1961 it was 12,311.

Air Express

Air express figures are six times higher. Air express poundage was 3,260 in 1959, 11,442 in 1960, 13,890 in 1961, and 28,681 in 1962.

An even greater increase was noted in air freight where the 1962 figures are 23 times higher than 1959. Air freight in pounds was 3,507 in 1959, 18,030 in 1960, 45,185 in 1961, and 71,525 in 1962.

In the first month of North Central Airlines service, 222 passengers originated from Outagamie County. Last December, the total was 496.

Lowest Month

The lowest month was August of 1959 with only 199 passengers. The record month was June of 1962 with 564 passengers.

December of 1962 was a record month for pounds of air mail originating from Appleton with 42,210 pounds, compared to 401 pounds in the first month of North Central operation October of 1959, with 303 pounds, was the lowest.

When air express service began in July of 1959, only 452 pounds originated from Appleton. In December of 1962, the total was 2,352 pounds. The record was June of last year with 4,504 pounds.

Greatest Increase

The greatest increase has come in air freight. Last December, with 9,358 pounds was another

LMR Homemakers To Attend Meeting

ROYALTON — The LMR Homemakers Club and their husbands will attend a special interest meeting at New London High School Monday evening.

Donna Ruhland, Waupaca County home agent, and Joe Walker, Waupaca County agricultural agent, will present a lesson on business administration.

Chilton Set Back 56-53 by Plymouth In Wild EWC Battle

Sheboygan Falls Takes Kiel 84-61, New Holstein Tops Kohler 68-53

EASTERN WIS. CONFERENCE

| | | | |
|-----------------|---|---|---|
| Chilton | 1 | 1 | 1 |
| Plymouth | 1 | 1 | 1 |
| Sheboygan Falls | 1 | 1 | 1 |
| Kiel | 1 | 1 | 1 |
| New Holstein | 1 | 1 | 1 |
| Kohler | 1 | 1 | 1 |

Chilton's defeat by Plymouth was a setback at the hands of the winners in a wild and woolly Eastern Wisconsin Conference tilt.

Elsewhere in the conference, Sheboygan Falls romped over Kiel 84-61. New Holstein defeated Kohler 68-53. Valdora downed Elkhart Lake 78-52 and Brillion lost to Oostburg 66-39.

At Chilton, it was again the Tigers' inability to handle the press that turned apparent victory into defeat. Chilton led 50-41 with about five minutes remaining in the game as the two teams traded points after the fourth quarter center jump. The third period ended with the Tigers holding a nine-point, 44-35, advantage.

Then came the full-court press and the Tiger collapse. The Panthers strung together nine straight points to knot the count at 50-50 with 3:10 left. Herb Kuhlow's brace of gift shots brought the Panthers abreast of Chilton and Dan Ludwig provided the eventual winning points.

Semi-Final

Plymouth went into a semi-stall with Ludwig hitting on a pair of long jump shots from the side, his only field goals of the night. They put Plymouth ahead by four, 54-50, but Tom Rhein narrowed the margin to one with a three-point play that set the score at 54-53.

Jim Plotz coolly sank a pair of gift shots to put the Panthers out of reach.

Plymouth scored the first four points of the contest, then settled back for a low-scoring first half. The Tigers moved to a 13-8 first period advantage and upped it to 11, 22-17, at the half.

Mark Rohde led an early third quarter spurt by the Panthers that carried them to within a point of a tie and 32-31 before the Tigers recovered and built up their third period lead.

Rohde, who scored five buckets in the Panthers' third period rally, led all scorers with 19 points. Jim Wagner topped Chilton with 16.

Loose Loose Sixth

Playing without the services of their leading scorer, Jim Ross, the Brillion Lions went down to their sixth straight league loss, a 66-59 setback at Oostburg. Ross sprained an ankle in practice.

The host Flying Dutchmen moved ahead to a 14-7 first period advantage and led by eight points, 27-19, at the half by outscoring the Lions 13-12 in the second period.

Ken Konz led a third period blitz by the hosts that put the game on ice. Konz connected on five straight field goals—the truck loads later the lawn was heaped with wood.

Dutchmen tallied 19 points compared with nine for Brillion. The sport gave Oostburg a 17-point edge going into the final frame.

Mike Thune led the winners with 23 points and Konz had 14. Don Golder and John Lindner scored 13 and 11 points, respectively, for Brillion.

The other three co-leaders kept pace with Plymouth.

Sheboygan Falls made a run- away of its contest with Kiel for three periods winning 84-61 with Mike Maurer's 19 points showing the way. Dave Paszk tallied 36 for Kiel.

Valders got scoring punch from unexpected quarters downing Elkhart Lake 78-52. Jerry Stueber and Cliff Brennan contributed 34 and 19 points, respectively, to the win after Viking ace Keith Lipfert was checked. Dick Mack and Jim Moersch led the losers with 17 and 15 points.

New Holstein used a big third period to defeat Kohler 68-53. The winners outscored Kohler 20-10 in the frame to break up a close game. Ed Flynn scored 17 for the winners and Dave Measner had 16 for the losers.

Dr. Paul Tillich, Theologian, to Talk at College

Guest Plans to Give Two Public Lectures During Coming Week

Dr. Paul Tillich, one of the 20th century's most eminent theologians, will come to the Lawrence College campus next weekend for two public lectures.

At 4:30 p.m. Jan. 11, he will speak before students and staff of the Freshman Studies course on Soren Kierkegaard's "For Self-Examination" in Stansbury Theater of the Music-Drama Center.

The usual Thursday convocation period will be postponed until 10:40 a.m. Jan. 12 when Tillich will speak on "Christianity and the Challenge of Non-Christian Religions."

Dr. Tillich's eminence is founded on more than a dozen books and numerous articles. He has

Dr. Paul Tillich

received 15 honorary degrees, as well as such distinctions as the Goethe Plakette given in Frankfurt, Germany, in 1906, the Grosse Verdienstkreuz of the West German Republic in the same year and the Goethe Prize in Hamburg in 1958.

Education Background
Prussian by birth, Dr. Tillich was educated in his native Germany at the universities of Berlin, Tubingen and Halle. He received the Ph.D. degree from the University of Breslau and the theological degree from Halle. In 1912 he was ordained a minister of the Evangelical Lutheran Church.

After serving as a chaplain in the German army during World War I, he embarked on a teaching career in various German universities. Because of his opposition to National Socialism, Tillich once said, "I had the great honor and luck to be about the first non-Jewish professor dismissed from a German University."

At that time, 1933, he was invited to Union Theological Seminary by Reinhold Niebuhr where he remained until 1955. From that year until this fall he was at Harvard, and now has been appointed to the University of Chicago staff. He became an American citizen in 1940.

Tillich's literary output is unique because it has been divided between two languages—English and German. When he first came to America, he was obliged to translate many of his earlier works into English; now, writing predominantly in English, his works are being translated into German.

Books Published

His books include "The Religious Situation," "The Interpretation of History," "The Protestant Era," "The Shaping of the Foundations," "The Courage to Be," "Love, Power and Justice," "The New Being," "Theological Reasoning and the Search for Ultimate Reality," "Dynamics of Faith," and "Theology of Culture."

Tillich's visit to Appleton will have some overtones for he has been a close friend of Dr. Eliza Beth Koffka for many years. Mrs. Koffka, now visiting professor of history on the New York Foundation, is retired from Smith College.

Both of the Tillich talks are open to the public without admission charge, but the speech before the Freshman Studies class will be rather specialized in nature.

Neenah Woman to be Opera Talent Judge

NEENAH — A Neenah resident has been selected as one of the judges for the Metropolitan Opera District auditions to be held in Milwaukee Feb. 18.

Named as judge from Neenah was Mrs. Arthur F. Byfield, 651 Congress St. The auditions that Mrs. Byfield will help judge will be held at Milwaukee's Athenaeum, 515 E. Kilbourn Ave.

This is the first time in the history of the Metropolitan Opera Company that these auditions have been held in this area.

Addition Ready At Kaukauna Adult School

Completion Allows Additional Classes To be Scheduled

KAUKAUNA — The new six-room addition to the Kaukauna Vocational and Adult School will be ready for use Monday, director Dominic Bordini says.

The move will allow the school to schedule additional classes for the second semester which begins Monday.

Moving into the \$100,000 addition enables the school to transfer classes formerly held in the basement rooms of the municipal building. Dedication of the addition is being planned in conjunction with an open house March 17.

This will mark the end of the second semester after which a spring session of classes is planned. One of the new classes for the second semester will be rapid reading for high school students. The course is designed to develop comprehension and a vocabulary which enables students to read faster and comprehend more fully what is read. Classes will be held Wednesday evenings.

Other Courses
Other new courses for adults include jewelry and gem cutting on Monday evenings. Work will be done on natural stones to make rings or pendants and copper enameling projects will be carried out.

The second class is water and oil painting which will be offered Wednesday nights. Openings remain in other classes and enrollment can be made by calling the school office.

In September the Vocational School will have full use of all facilities as classrooms now being utilized by high school students will be moved into the new high school addition said Bordini.

This will permit planning of additional classes, some of a technical nature for individuals who do not desire to enroll in college but would like further technical education to help meet the increasing need for skilled labor.

Home on Leave
MENASHA — Airman 2C John P. Stegert, son of Mr. and Mrs. George A. Stegert, 236 Seventh St., Menasha, is home on 30-day leave before departing for a base at Kassel, Germany, Jan. 15. He completed a 34-week course in ANTRC Carrier Microwave in ANTRC Carrier Air Force Base in Mississippi.

Receipts of Menasha Youth Group Reported at \$1,887

MENASHA — An end-of-the-year report by the Menasha Youth Organization shows receipts as of Nov. 24 at \$1,887 with no charitable contributions.

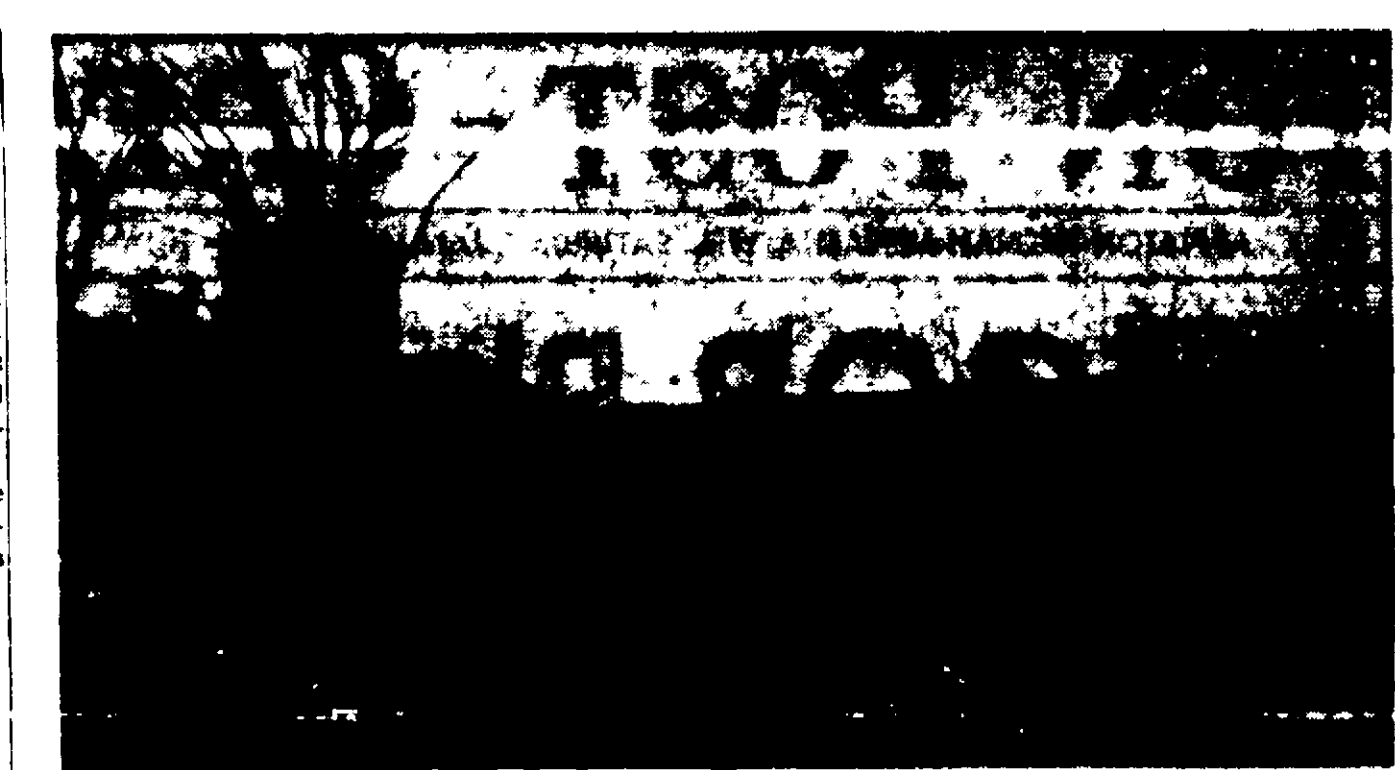

The figure compares with \$2,886 in receipts for 1960-61 and \$3,259.80 in receipts for 1961-62.

Receipts show a total of \$701 collected from the Blue Inn membership card sale and \$1,186 in dance receipts.

Disbursements for 1962-63 show: of History, "The Protestant Era," "The Shaping of the Foundations," "The Courage to Be," "Love, Power and Justice," "The New Being," "Theological Reasoning and the Search for Ultimate Reality," "Dynamics of Faith," and "Theology of Culture."

Tillich's visit to Appleton will have some overtones for he has been a close friend of Dr. Eliza Beth Koffka for many years. Mrs. Koffka, now visiting professor of history on the New York Foundation, is retired from Smith College.

Both of the Tillich talks are open to the public without admission charge, but the speech before the Freshman Studies class will be rather specialized in nature.

Work is about half-completed on the new \$300,000 wing at Monte Alverno Retreat House. The wing, which will have 30 private rooms for retreatants, is expected to be completed by July. (Post-Crescent Photo)

Neenah Will Sell Boat, Buy Smaller One

NEENAH — The City of Neenah will not retain its \$7,000 Christmas gift, a 24-foot Chris-Craft motor boat for very long. This is the consensus among city officials according to an announcement by Mayor Carl E. Loebing this morning.

The motor boat, which was formally accepted from donor James H. Kimberly via City Council action Wednesday night, will either be sold or traded in to obtain a replacement for the present Neenah Police Department river patrol boat.

Said Mayor Loebing, "The 24-foot boat which Kimberly was so kind as to give to the city is much too large for river patrol work, and that's where we need a new boat. The present craft used by Neenah police for that purpose is in dire need of replacement. So Kimberly's boat will be used to help the city secure a new river patrol craft."

He added, "I would say that by spring of this year we should know whether Kimberly's gift boat will have to be sold or traded in to secure the desired craft."

The donor, who is president of the Kimberly-Dormann Corporation, Chicago, resides at 408 E. Wisconsin Ave., Neenah.

Sunday at the Churches

FIRST ENGLISH LUTHERAN (The American Lutheran Church), corner of East North and North Division Streets. Rev. James L. Valley, minister. Church school (pre-school through adult) 9:15 a.m. to 11:15 a.m. Sermon 10:30 a.m. Nursery 9:30 a.m. to 10:30 a.m.

ST. JOHN CATHOLIC, Little Chute.

Clergymen Gather to Fight Racial Injustice

National Conference Brings Together Major Churches to Form United Attack

BY EDWARD E. KIRCH
CHICAGO (AP)—Racial injustice will be a much-discussed subject in Chicago Jan. 14 when clergymen of major faiths convene at the Edgewater Beach Hotel for a four-day meeting.

For the first time, the National Conference on Religion and Race will bring together all major churches to form a united attack on the problem of racial injustice.

The conference may have far-reaching—though perhaps not immediately discernible—effect on the social climate of the United States.

Immediate Result
The immediate result will be the hammering out of a "declaration of conscience" which will go out as the word from the leaders of most of this country's churches.

A planning committee is producing recommendations for the consideration of the conference as to follow-up action on national and local levels.

Those attending the conference will include officials of the National Council of Churches, the Synagogue Council of America and the National Catholic Welfare Conference.

More than 60 religiously affiliated national organizations have indicated they will be represented by delegates at the conference.

Chairman of the conference will be the Rev. Dr. Benjamin E. Mays, president of Morehouse College in Atlanta Ga.

Vice Chairmen
The vice chairmen will be the Rev. Dr. Martin Luther King, Jr., of Atlanta, Ga., and the Rev. Dr. Ralph Abernethy, of Chicago.

The Rev. Dr. King is bishop of Synanon and head of the Greek Orthodox See in Detroit, Mich., the Most Rev. Paul J. Hallinan, archbishop of Atlanta.

Rabbi Ferdinand M. Iserman of Temple Israel, St. Louis, and Bishop Julian Smith, presiding bishop of the First Episcopal District of Christian Methodist Episcopal Church.

The planners of the conference said it is being convened "to provide an occasion for lay and clerical religious leaders to conduct a concrete examination of the role of the churches and syna-

gogues in meeting religious and civil racial problems."

The planners hope that the conference will give a push to projects designed to crumble remaining racial barriers.

English Church Sunday School Officers Picked
Several new officers have been selected for the Sunday school administration committee of the First English Lutheran Church.

Henry Niederharn was chosen assistant superintendent in charge of equipment and Mrs. John Balling was named assistant superintendent in charge of the nursery roll.

Other appointments announced by Supt. Donovan Clement were Leland Goodman, principal of the high school and adult department.

Jerry Borsche was appointed assistant to financial secretary Robert Koerner.

Other officers of the Sunday school are William Brinkman, assistant superintendent, Kenneth Gauert, treasurer, Mrs. Walter Mantuffel, recording secretary.

Mrs. Henry Staedt, editor of the Sunday school paper, "The Light," Mrs. Kenneth Berkman, principal of the primary department, Mrs. Orville Haefel, principal of the pre-school department, and William Brinkman, principal of the junior department of the Sunday school.

Two Slightly Hurt in Menasha Bridge Crash
MENASHA — Eight-year-old Victoria J. Joas and Mrs. Margaret M. Joas both of 1805 S. Commercial St., Neenah were advised to seek medical attention for injuries they received Thursday afternoon when the car in which they were passengers was hit from behind on Racine Street Bridge in Menasha.

Victoria suffered a bump on her forehead and Mrs. Joas complained of a headache.

They were injured when an auto driven by William L. Kraus, 19 15th S. Commercial St., Neenah, hit the Joas vehicle from behind.

HINTS FROM HELOISE

Dear Heloise:

Here is a helpful hint for folks who like to enjoy the sparkle of crystal chandeliers but dread the job of taking them apart for cleaning.

I use a tall, narrow jar — such as olives come in — fill it one-half inch from the top with a strong solution of detergent and hot water.

I then place newspapers on a table beneath the crystal fixtures and, holding this jar under the crystal lobes and prisms, I run the jar well up and around each chain of crystal drops.

The grime will drop off and fall back into the jar. I do this twice with my mixture of detergent and then take an other bottle with clear, warm water and rinse the same way, letting the drops of water fall on the newspaper which has been placed on the table. I have found that rather hot water with the detergent works best.

Stuart Oliver

Dear Ladies:

Just because this man has found an excellent way to do the tear-drops, does not mean that you should take a big tub of water and douse the entire chandelier in it! Remember this gadget does contain electricity.

A friend of mine has one of these chandeliers hanging in her living room. I realize that chandeliers differ in style and design.

On her type of chandelier, we unscrewed the light bulbs—and gently lifted the saucer which also contained a batch of prisms and teardrops—and doused the entire saucer with all its little gadgets into a pan of sudsy water to which some ammonia had been added. We then poured water over this little saucer which we held over an empty pan. This removed most of the accumulated dirt.

On the parts which we did not remove, this gentleman's explanation was absolutely excellent and sir, we thank you.

Dear Heloise:

Here are a few tips from the wheelchair brigade: A person can carry almost any-

thing such as a pile of cleaning water, and chairs from one room to the other on the footrest of your crystal chandeliers but dread the chair.

When trying to stir a high pot on the stove, put a pillow on the seat of your chair or have a small box to sit on when you start to prepare dinner. You will find that you are able to see into the pot while cooking. It is far less frustrating.

Come on, wheelchair gang, let's get going.

Dear Heloise:

We have a round dining room table. Finding the proper table mats to use on it was a problem until I ran into some plastic (the kind used for upholstery).

I bought one-half yard of plastic and, using my pinning shears, cut it into four even pieces: 12 inches x 18 inches.

I set the pieces of plastic on the table and cut one edge of it to fit the curve of the table itself! We have used these mats every day for nine years and they are as good as new.

Menasha Kiwanis Seats Officers, Directors for '63

MENASHA — Officers for the Menasha Kiwanis Club for 1963 were installed Thursday night at a meeting at the Valley Coffee Shop.

They are Ralph H. Sell Jr., president; William T. Lewis, first vice president; Carl C. Walter, second vice president; William Herziger, secretary; and Harry C. Kosloske, treasurer.

Paul J. Smith, Oshkosh, District 18, Lieutenant governor, installed the new officers. He was assisted by Russell Williams, Oshkosh, past district governor.

Directors also were installed. They are Elmer Zimmerman, Dr. D. J. Bauman, Arnold Cane, Robert Vanevenhoven, James Auer, and Taylor Brown.

Visitors were present at the meeting from Oshkosh Noon Club and Lakeshore Kiwanis Club, Oshkosh.

Shenwold

Persuade Foe to be Helpful

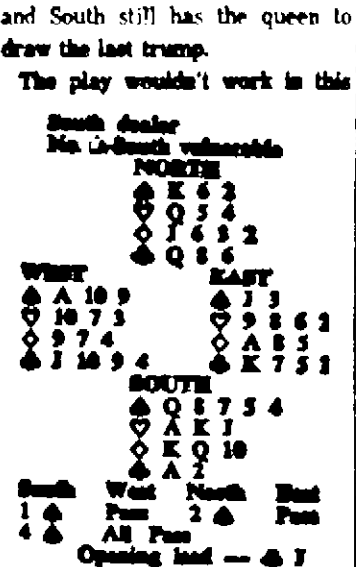

An alert opponent always tries to thwart you if he cannot see anything better to do. It's particularly delicious to bamboozle such an opponent so that he helps you when he's trying to hinder you.

West opened the jack of clubs, covered by the queen, king and ace. Now South had to worry about losing a club, a diamond, and two trumps.

South could hold the trump loss to one trick if an opponent held the doubleton ace of spades — provided South could guess which opponent had this holding. For example, suppose West holds A-10 of spades, but not the nine. South leads a low trump to

dummy's king and returns a trump, playing low from his own hand. West must play the ace, and South still has the queen to draw the last trump.

The play wouldn't work in this

case. West would play the nine of spades first and would still have the A-10 behind declarer's queen. South was sure to lose two trump

tricks unless he persuaded an opponent to help him.

After winning the first trick with the ace of clubs South must prepare for a take discard. He cashes the ace and king of hearts and then leads a low trump toward dummy.

This looks as though South wants to reach dummy with the king of spades in order to take an immediate discard on the queen of hearts.

When the hand was actually played, West stepped up with the ace of spades to cash his club trick before South could discard a club on the queen of hearts. This was just what South wanted; now he could limit the trump loss to one trick.

Daily Question

Dealer bids one spade and partner doubles for a takeout. The next player passes, and you hold: S - J - 3; H - 8 - 4 - 2; D - A - 8 - 5; C - K - 7 - 5 - 3. What do you say? Answer: Bid two hearts. When

The Ailing House

Move Chest Up Steps

BY ROGER C. WHITMAN

Q: We had to move a large chest of drawers upstairs. The stairs are not a straight flight, but have a turn half-way up. In getting the chest around this, a large piece of plaster was gouged out, showing the lath underneath. How can we repair this?

A: Spackle can be used to fill the hole, or use patching plaster; the lath will hold the plaster satisfactorily. If the lath is wood, sprinkle it with water first, so that it will not absorb water.

you have a choice, respond in a

major rather than in a minor suit. A good partner always has support for the unbid major when he doubles for a takeout. (Copyright 1963)

from the new patching plaster.

Smooth the patch level with the rest of the wall.

Q: When we build a fire in our fireplace the smoke tends to drift into the room. The chimney is not clogged. What do you recommend to correct this?

A: Have you verified that the damper is fully open? If there are large trees around your house, they may be interfering with proper air circulation and air currents above the chimney opening. Or the chimney itself is not high enough to provide proper draft (at least four feet above a flat roof, two feet above the highest point of a gable roof). This might cause the smoke to drift into the room. If the chimney flue is undersized, or smaller at the top, checking the draft, this could contribute to the problem. Placing a metal hood across the

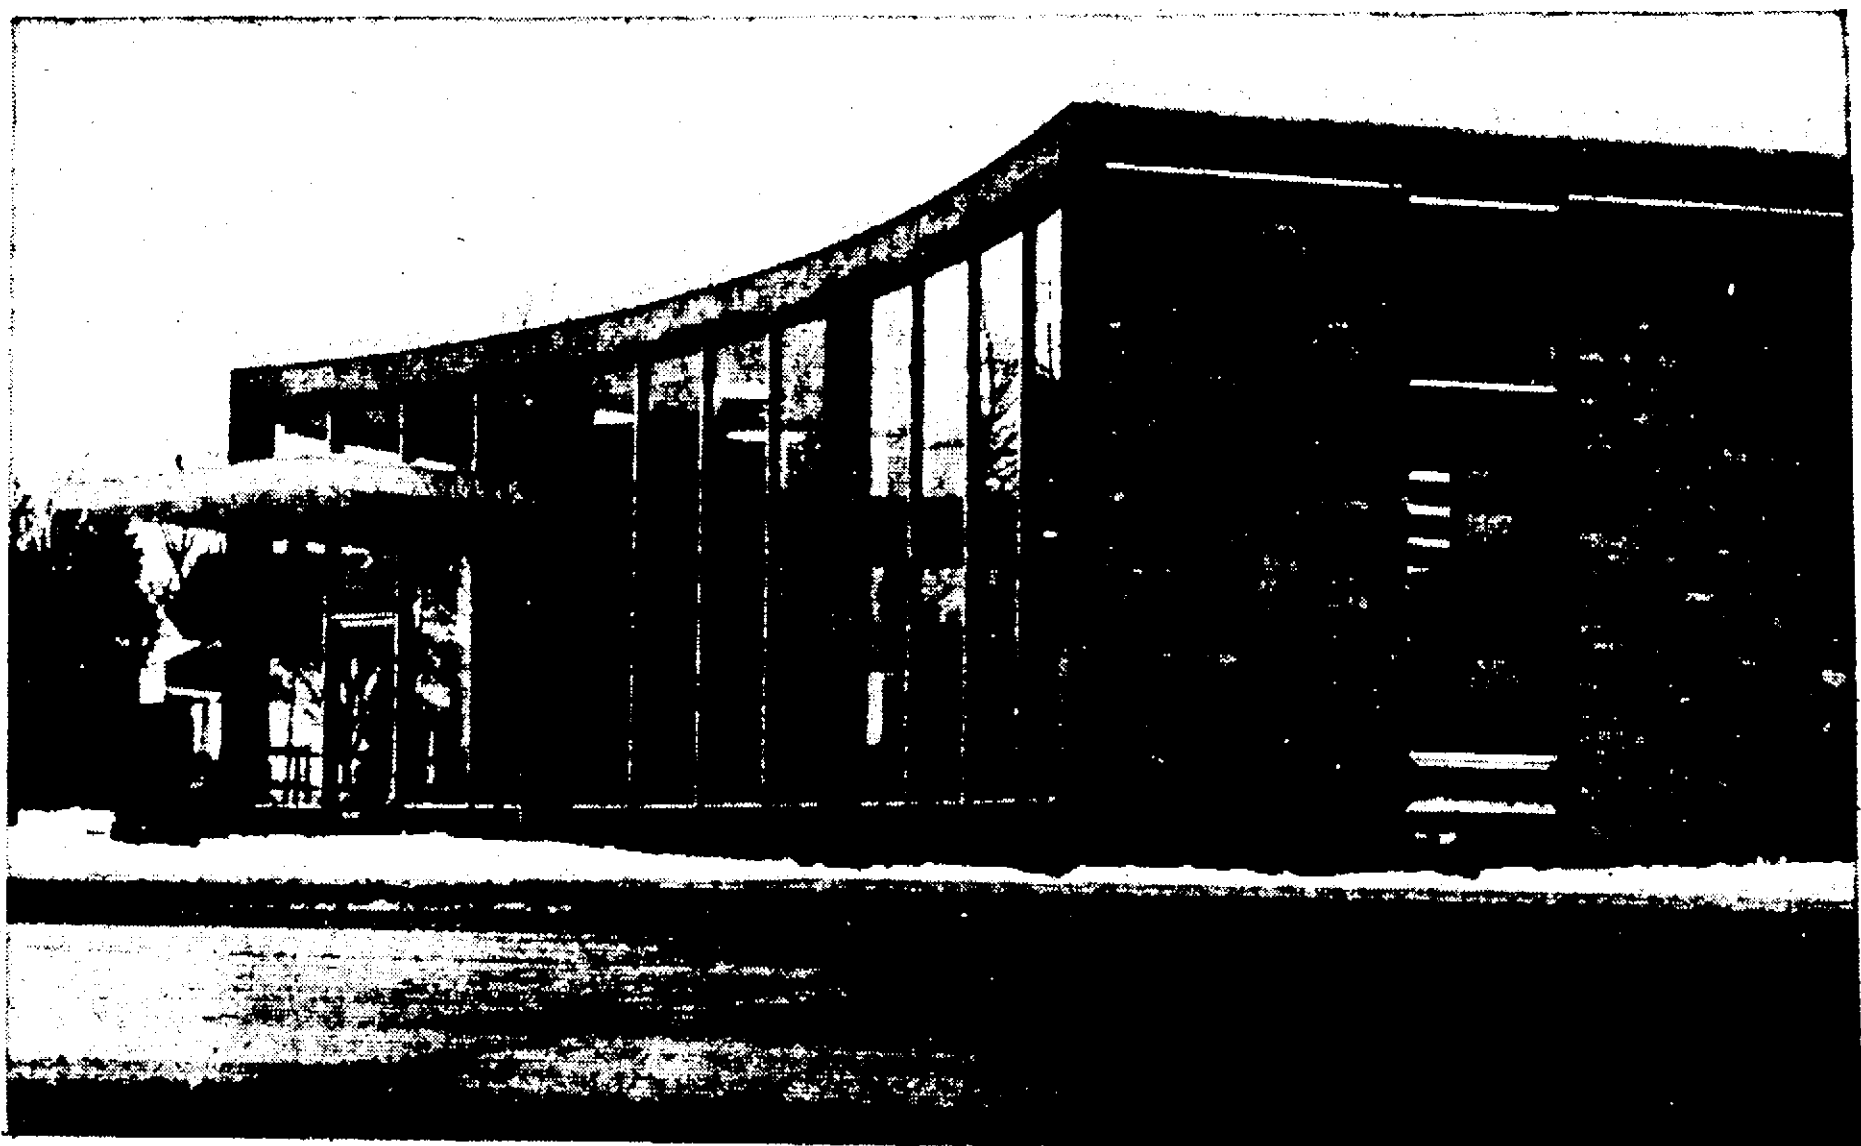

top third of the fireplace opening sometimes eliminates the smoking by increasing the draft because of the reduced opening.

I suggest sending 25 cents (no stamps) to the Superintendent of Documents, Washington 25, D.C., for a copy of "Fireplaces and Chimneys," giving information on proper procedure and construction. (Copyright 1963)

Allis-Chalmers Gets \$10 Million Contract

MILWAUKEE (AP) — Allis-Chalmers International announced Friday that it has received a contract for more than \$10 million to build a 300,000 kilowatt hydroelectric generating plant for the state of Kerala in southern India. The contract covers generation equipment and all switchyard equipment as well, with complete commissioning scheduled for early 1966.

NORTHERN STATE BANK OPENS MONDAY

Big Hours — Big Services — At Appleton's Big Little Bank — The Northern State

BIG HOURS Northern State breaks through the banking hour barrier. We'll be open from 10 to 5 Monday through Thursday and from 10 to 8 on Friday! Just one of many customer convenience features you'll find at Appleton's first neighborhood bank, our city's first new bank in 51 years!

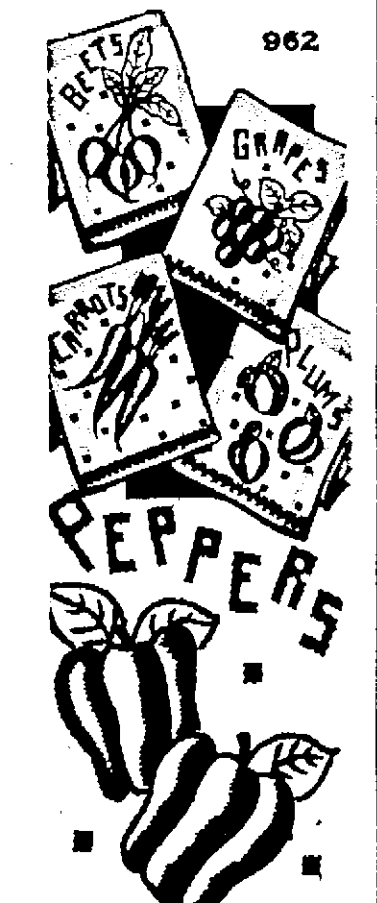

BIG SERVICES It may be a surprise to you, but Northern State offers every banking service you're accustomed to. Savings, safe deposit, checking, personal and commercial loans, money orders, travelers' checks, many others.

BIG CONVENIENCES Drive-up windows and free parking are two other reasons why banking at the Northern State will be so pleasant and so convenient for you.

Stop in and have a get-acquainted cup of coffee, a doughnut or cookies. It's on the house, the big little banking house on Wisconsin and Drew.

The Northern State Bank—as neighborly as a handshake.

Second Thoughts on Cuba

The possibilities of "what might have been" in Cuba had the United States acted differently in dealing with the Batista regime and the budding Castro revolution is explored in a new book by our former ambassador to Cuba, Earl Smith. But while Smith's criticism of State Department confusion and differing decisions has considerable merit, there is no guarantee that the way he advocated would have been much happier.

Smith was ambassador to Cuba for the Eisenhower Administration and advocated firm support of Batista as the revolution grew. Certainly he did not mean that he agreed with Batista's dictatorial regime. Apparently he felt that with a little more time Batista could have been convinced of the necessity for relinquishing his iron control. In fact there was a reasonably open election held in 1958 with the election as president of Agüero. But whether Agüero would have been a yes man for his friend Batista was never tested because Castro took over and Batista fled before Agüero could take office.

Smith heavily criticizes William Wieland, Roy Rubottom and the CIA, all residents of *The Fourth Floor* of the State Department. He charges that they either knew or should have known that Castro was a Communist and that they were responsible for the withdrawal of military arms shipments to Batista in the spring of 1958.

But what is really the matter of controversy here is exactly what the attitude of our State Department and representatives to other governments should be. Ambassadors are official representatives of our government to another. Does this mean a responsibility to the regime in power in the host country? Smith apparently believes that it does. But our State Department activities in many countries over many years indicate otherwise.

Certainly it is unrealistic to suggest that an ambassador to a country should support a revolutionary group seeking the overthrow of the regime in control whatever the excesses of the people in power. But our policy of non-recognition of regimes with which we have serious—or political—disagreement is an obvious attempt to manipulate or even to dictate the government of another country. I may be argued that such non-recognition is valid when another

government holds power by brutal force; but we cannot deny that it is nevertheless attempting manipulation.

But as long as we are going to attempt such interference Smith tellingly points out that our responsibility is heavy. "If the policy of the United States is to bring about the overthrow of dictators in the hope that democracy will follow, then I believe that the United States must be prepared to take whatever steps are necessary to preserve law and order and prevent chaos during the interim period of transition which may last a long time. If free and open elections are to be held in these nations when a dictator is overthrown, a provisional government must be formed and such government needs outside support to maintain law and order. To do otherwise leaves a vacuum in which the Communists gain control. Such a vacuum did occur in Cuba."

But Smith here overlooks that this type of dictator overthrow has been going on for generations in many Latin American nations especially. The ruthless clawing to power and the administering of absolute power by the supposed savior of the people have not been merely phenomena of the Communist lust for power. Dictators, like Batista for instance, have been just as vicious and unjust when their aim was personal power rather than the triumph of the socialist revolution. The difference in recent years has been the ability of the Communists to exploit this personal drive for their own purposes. It is quite likely that this is what happened in the case of Cuba.

Afterthoughts like Smith's book following disasters draw their own controversies. Adolf Berle Jr., a former assistant Secretary of State, in reviewing *The Fourth Floor* says that Smith is "desperately unjust to Rubottom, Wieland and the C.I.A." These groups, while not knowing whether Castro was a Communist "were convinced he was a hopeless megalomaniac-psychopath." But Berle concedes that there is something chaotic about the State Department's massive bureaucracy that needs serious attention.

One thing needing review should certainly be the extent of its efforts to fashion the world after our own image. If we are bound to do so, the responsibility doesn't end when one dictator is tossed out of a window or strung to a lamp post.

Home Grown College Degrees

The New York State Education Department is studying a problem about which many college educators have been concerned for some time. In these days of rising enrollments is there some way in which people studying at home can become eligible for college degrees without in any way making such degrees scholastically cheap?

Most colleges and universities have class attendance requirements and also generally require at least one year's campus residency for those who take correspondence or extension courses before the awarding of a degree. Particularly for young undergraduates the class attendance has been felt to be necessary for understanding as well as actual study. The residency requirement is based mainly upon the idea of one being a member of a "community of scholars" with the opportunity of lectures, discussions and scholastic atmosphere available.

But today as our institutions of higher learning become more crowded—and more expensive—and as the need for educated people becomes greater, particularly in the teaching field, other possibilities should be considered. Perhaps the problem has been most acute for women who have left college to marry before their degree was earned. In attempting to return to the classroom in later years they often met ridiculous requirements of physical education, survey courses or merely class attendance preventing their receiving a

degree. Many women who have kept up with a particular interest through adult education, correspondence or television courses or simply through extensive reading and study, find that they are unable to get a degree without almost impossible expense or attendance although they may know far more than the young women who have faithfully attended class, passed exams and lived on campus.

In the field of education there is an ever-increasing need for teachers with a specialty. But many states, including Wisconsin, are raising the educational requirements for teaching. We approve of the process but it may be that the purely bureaucratic qualifications ought to be reviewed. In these days of emphasis upon independent study and research when many colleges have lowered or cut out altogether actual class attendance requirements, is the old insistence upon residency outmoded?

New York is considering whether proficiency examinations can be given to determine an individual's qualification for a degree even if there has been little or no formal college instruction. Certainly an examination cannot determine how much a person knows but conceivably it can indicate how thorough has been the study. Education after all is not a matter of sitting in a classroom. That is merely one of the methods of learning. As all progressive educators today know there are many methods, and some way of measuring the others ought to be devised.

Shape of Things to Come

Although we hesitate to mention it, it has appeared from our personal observation that Americans generally are getting bigger—we hesitate to say in which direction—during recent years. Now comes support from statistics gathered from clothing manufacturers and relayed through the *Insider's Newsletter* that Americans not only are getting taller but rounder.

Not that it's going to make much difference to any of us now fighting the battle of the bulge, but by the year 3,000, the clothing people say, American women are going to be 5 feet 10 inches tall and virtually square-shaped because the average female's waistline is expanding faster than her other vital measurements. If it's any consolation to the distaff side, men's waistlines are going to be 42 inches around or

six inches more than the present average if present growth rates continue.

U.S. males grew three inches taller in the last 100 years, gained 25 pounds and expanded four suit sizes. Women grew three inches taller and packed on 22 pounds in the same period while the variance between their hip and waist measurements, once 12 inches, now has slipped to 11½ inches. So if the expansion curve continues, American women will be virtually square-shaped by A.D. 3,000 because the other vital measurements aren't expanding fast enough to compensate for the waistline growth.

Perhaps at some intervening time, a bright young person will figure out a way to make the fight against rotundity easy because, we suspect, no man is going to like a square any more in the year 3,000 than he does in the year 1963.

Schools Cool, But Taxpayers End Up Sweating

Air conditioning in public schools is the greatest advance since the advent of the teacher, reports Dr. J. B. Johnson, superintendent at Albion, Ill. It has resulted in happier stu-

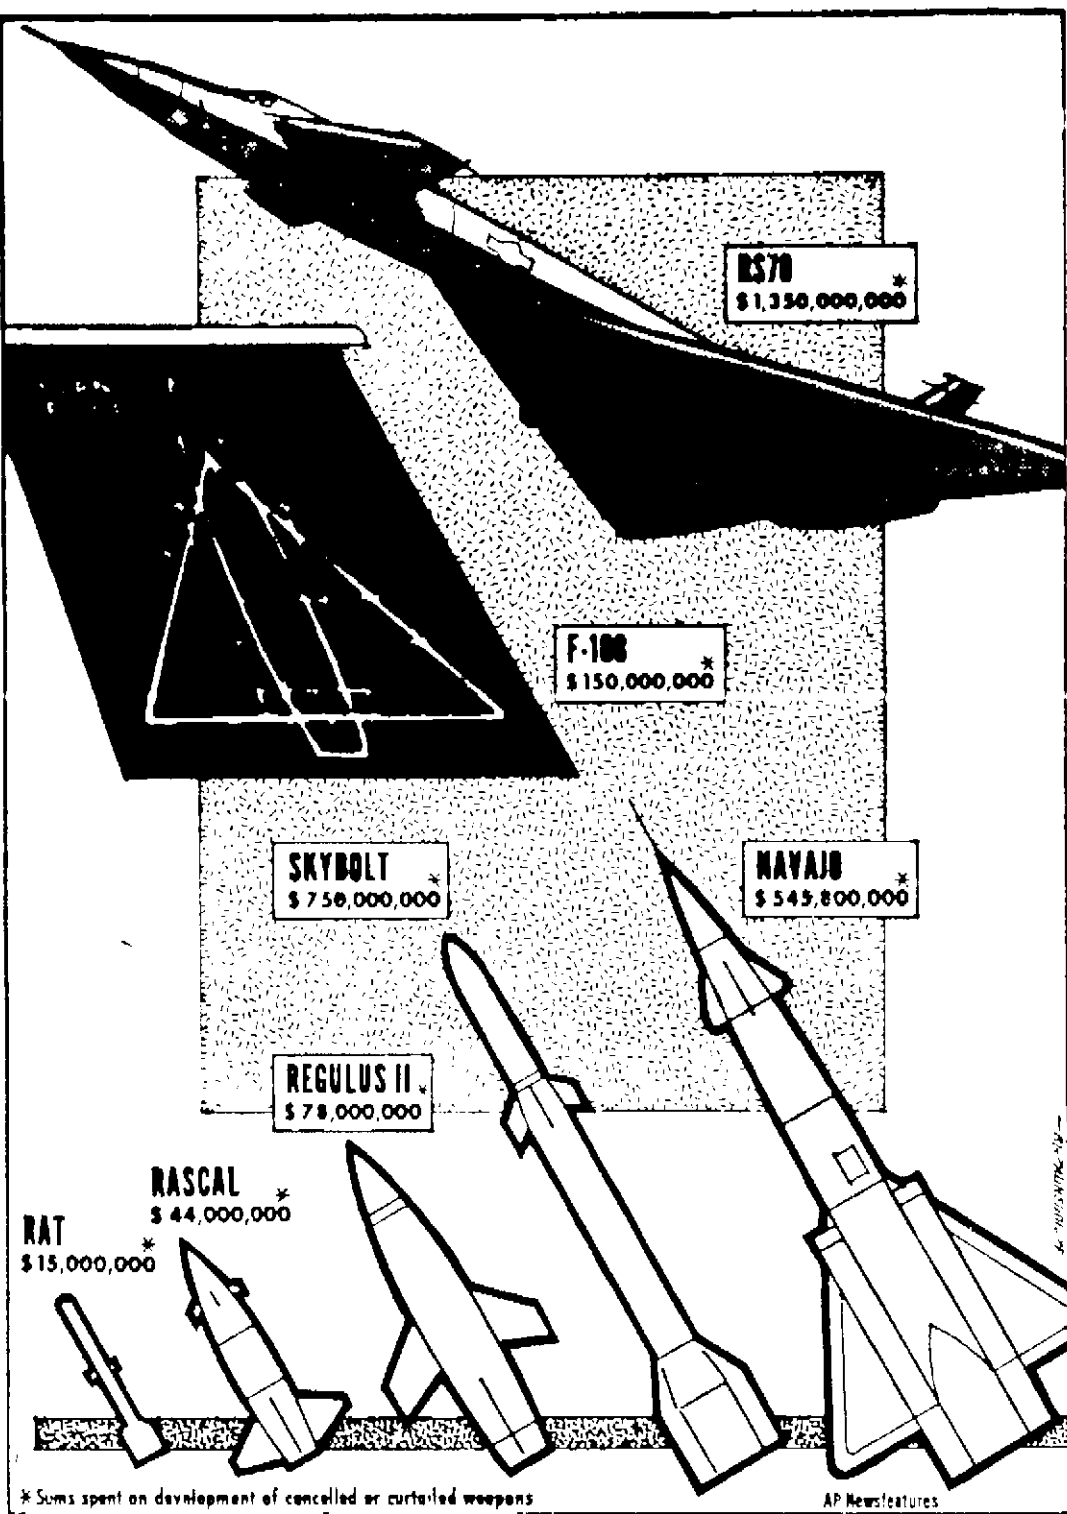

dents, faculty, more original thinking by students, fewer disciplinary problems, better eating habits by students and also "better decisions."

The big barrier toward air conditioning is the attitude of some citizens who think it is a useless luxury and that students "must sweat to get an education."

It's not likely citizens would object if schools were operated

on a staggered term system twelve months out of the year, thus cutting down on the number of new and expensive school buildings to remain empty and idle from around June 1 to Sept. 1.

Right now, students "sweating to get an education" are not the only ones perspiring. Taxpayers who have to pay for the building facilities are also sweating, even this time of the year.

Scrapping of Weapons Costs Billions; Skybolt Is Example

BY THE ASSOCIATED PRESS

When a Christmas toy outlives its day, it's thrown out. So is a weapon.

And the latest addition to Uncle Sam's military scrapheap, the Skybolt missile, is the costliest throwaway of them all. It joins such weapons as the Regulus II, Bullpup, Navajo, Rascal and Goose rockets and the F108 fighter which were cancelled after many millions of dollars were spent on them.

The U. S. Government spent \$750,000,000 on Skybolt before the Kennedy administration decided to scrap it. What the country got for its money in immediate results were six tests of the air-to-ground rocket. Only the last one was anywhere near successful and that came after the announcement Skybolt was being cancelled.

BILLION DOLLARS FOR PLANE

The Pentagon has spent even more—a staggering \$1,350,000,000—for a plane that has yet to fly. In fact a completed one doesn't exist. That is the RS70 which may make a first test flight next March or April.

The 2,000-mile-an-hour bomber has been battled back and forth between the Air Force, the Defense Department and the budget makers of Congress. Defense Secretary McNamara is strongly opposed to the aircraft and there is no certainty or even strong hope that the Air Force will be permitted to build more than three test planes.

McNamara estimates a force of 150 of the RS70s would cost over \$10 billion.

The Pentagon is quick to point out that all is not lost when a weapons system is junked. Much of the research and development work can be and is incorporated into subsequent, more sophisticated weapons.

For instance the guidance system of the Navajo ground-to-ground missile, cancelled in 1957 after \$545 million had been spent on it, was used in the highly successful Polaris. The navy made use of the F108's navigation missile firing system for its own Vigilante attack plane.

Weapons die stillborn for a number of reasons. They are superseded by more advanced designs. Or breakthrough in technology or change in strategy make them obsolete. Or they just cost more than they are worth.

That's what shot down Skybolt. President Kennedy decided that to get 100-plus Skybolts on duty would cost at least \$2.5 billion. He figured the Polaris missile, already proven, would do the

same job better, particularly when shot from submarines.

There is great pressure from dropping a weapon. There is, of course, the manufacturer. Douglas Aircraft Co., maker of Skybolt, defended that design but added it was in no position to assess all the military considerations of the cancellation.

The service developing a weapon understandably is loyal to it. In the Skybolt's case, there was great pressure from Britain which had counted on the missile as the striking arm of its jet bomber fleet.

Air Force Chief of Staff Gen. Curtis E. LeMay vigorously defends the RS70 against Pentagon claims that intercontinental missiles have outmoded the manned bomber. Air Force and congressional advocates insist men can perform some functions robot weapons never can. McNamara

claims present or planned aircraft missiles and Polaris submarines could "achieve practically complete destruction" of the enemy weapon system.

And out of such differences of opinion has grown a very expensive, electronically sophisticated junk pile.

Among the more costly throwaways of recent years were:

Regulus II — Cancelled by the Navy in 1958 "to provide the best balance in overall Navy weapons systems within the resources available at present."

The 1,000-mile range missile, on which \$78 million had been spent under contract to Chance Vought Aircraft Inc., was later superseded by the Polaris. The Regulus program had called for conversion of 5 submarines and 7 cruisers.

Rat — A Missile project cancelled by the Navy in 1959 after

Looking Backward

State's Col. Murphy Under Arrest

100 YEARS AGO

Quoted from the Appleton Motor for Jan. 22, 1963.

Col. Murphy, of the 8th Wisconsin Regiment, is under arrest for his disgraceful surrender of Holly Springs without firing a shot.

He had made a similar coward of himself at Luka on a former occasion. He is (of course) a Democrat and ought to be hung.

Who recommended him in the face of his notorious partisanship, or how he came to be appointed, remains a mystery.

The Milwaukee News says, "Col. Murphy is a Democrat, and this is the sole secret of the raid upon his character, etc."

It is a great deal worse than that. It is the sole secret of the raid upon his character and command both. Let the News and its protege stick and sink together in the Democracy, and may they glory in their stink.

25 YEARS AGO

Saturday, Jan. 1, 1938

No paper was published that day.

10 YEARS AGO

Saturday, Jan. 3, 1953

New officers of the congregation of St. Peter Lutheran Church, Weyauwega, were installed at the New Year's Day service. They included Edward Kobiske, president, John Chick, vice president, Herbert Stelsner, secretary, Arthur Paschke, treasurer, Walter Koplen, elder, Clarence Friedrich, trustee, Gilbert Paap, school board mem-

Wisconsin Report

Kennedy - Rockefeller Lineup in Wisconsin '64 Primary Possible

BY JOHN WYNGAARD

MADISON — The turn of the year brings the 1964 presidential campaign in reasonably close view, and especially in Wisconsin where the politicians begin their preparations early for the presidential preference primary.

As matters stand now, the outline of the prospects for the Wisconsin preference primary ballot is so obvious that perhaps it does not merit the description of commentary. President John Kennedy will almost surely find no opposition to the resubmission of his name in this state which gave him the first significant push toward the White House in 1960. On the Republican side, the emergence of the campaign of Gov. Nelson Rockefeller of New York is very nearly as obvious, and as far as the Wisconsin primary is concerned, very nearly as favorable as is the outlook for Mr. Kennedy.

Whatever is said at Albany, it is evident to the Wisconsin political professionals that the New York governor is off and running, although the etiquette of the profession requires him to \$15 million had been spent on it. The Navy cancelled, it said, because superior antisubmarine weapons were being developed.

Bullpup — A Tactical air-to-ground rocket cancelled by the Navy because a more improved weapon was being developed.

Navajo — Cancelled in 1957 because the accelerated ICBM program made it apparent the ground to ground Navajo would soon be obsolete. The Air Force spent \$545.8 million on the missile.

Rascal — An air-to-surface missile cancelled in 1958 after \$44 million had been spent on it under contract with Bell Aerospace Co. Development delays and technical advances made it feasible to drop Rascal in favor of the Hounddog rocket.

F-108 — A 2,000-mph interceptor, the F108 was cancelled in 1959 by the Air Force after spending about \$150 million on it under contract to North American Aviation Inc. The Air Force said even a few squadrons of 25 planes each would cost between \$5 billion and \$8 billion and missiles were making heavy demands on the Air Force budget.

LIBERAL? * * *

Gov. Rockefeller is a liberal, as he would be measured in Wisconsin traditional Republican circles.

Yet he is an organization man, and during the last two years he has consciously tried to enlarge his appeal among moderates and conservatives. He has an impressive record of victories, and the pragmatic Republican politicians of Wisconsin are likely to welcome at the head of their ticket a man who has a chance to win, and to help them win state office as well, even if it means swallowing some of their reservations about his social philosophy.

A month ago the state Republican committee made public a letter from an Albany political associate of Gov. Rockefeller that said in effect the Rockefeller campaign would not be launched here without consultation with the Wisconsin Republican organization.

That was tantamount to an announcement that Rockefeller wants the "regular" party support here, as well as a measure of his realistic appreciation of the mechanics of politics. An early guess is that 1964 will bring the first important ballot confrontation of Kennedy and Rockefeller, in a popularity contest that will again put the Wisconsin voter in the center of the national political stage.

maintain an elaborate pose of indecision for a while longer and perhaps as much as a year.

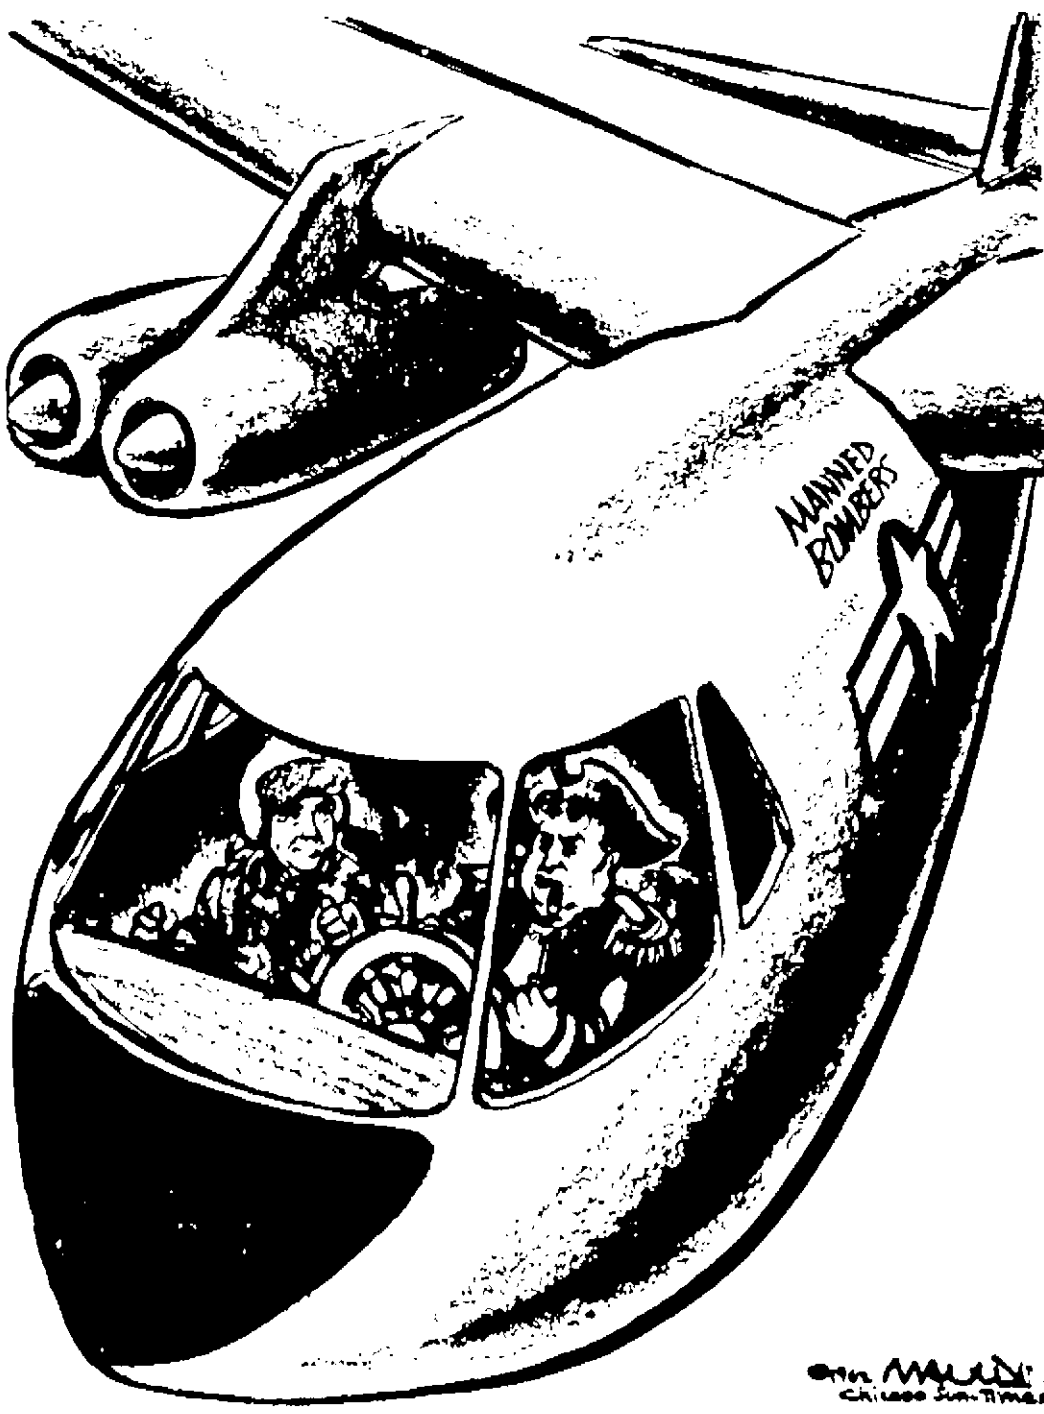

NOW IT GOES

There is a very good chance, moreover, that he can make his first national impression in the Wisconsin primary without a Republican rival.

The only other potential bidder for the Republican nomination now on the horizon, in practical definitions, is Sen. Barry Goldwater of Arizona. Goldwater has a substantial backing among some of the stalwart forces of the Wisconsin Republican organization. But there is no real indication that he intends to run for the presidency, and if he does change his mind (his own senate seat is up for election in 1964 and thus a presidential bid would be a dangerous risk) there will be those of his friends who will advise him against challenging Rockefeller on this ground.

Goldwater's opportunity, the realists will argue, will be better served, if he decides to make the plunge, by relying on the non-primary states in which he has a following, including those of the South, rather than by risking an early exposure in this popular election in Wisconsin in a contest with the resourceful New Yorker.

The Wisconsin presidential primary has always had a doubtful meaning in its results — whatever the national commentators so blithely conclude from it—because it is an open primary and there is a substantial and obvious cross-over of the voters. That characteristic in 1964 would be an enormous asset for Rockefeller, however, since thousands of Democrats might be expected to respond to his name on a contested ballot when that of President Kennedy is listed without opposition.

'Don't Give Up the Ship!'

Appleton Man Pleads Guilty Of Burglary

**Gerald Glander, 26,
Admits 3 Charges
In Outagamie Court**

Gerald Glander, 26, 288 W. Spring St., pleaded guilty to three charges of burglary before Judge Gustave J. Keller in Outagamie County Court Branch 2 Friday.

Judge Keller ordered Glander held in the county jail without bond until further proceedings Friday.

Glander admitted to Appleton police that he took part in burglaries at Appleton Manufacturing Co., 228 E. North Island St., Dec. 3, in which \$30 was taken from a cash drawer, a burglary at Riley Furniture Store, 217 W. Wisconsin Ave., Dec. 20 at which a radio and several blank checks were stolen, and at Olson Transportation Co., 743 E. Wisconsin Ave., Dec. 21.

A truck driver saw two men in the offices, and they fled, leaving a 300-pound safe standing on a wheel dolly. The men were chased on N. Union Street by the driver and a patrolman but escaped.

Arrested Dec. 31
Police arrested Glander Dec. 31 after an investigation. They had found Glander and his wife with Mr. and Mrs. Tommie Joe Beasley when Beasley, 29, was arrested at his apartment at 1016 1/2 N. Union St. on Dec. 28.

Beasley has been charged with forgery in Appleton and with attempting to cash a forged check at an Oshkosh supermarket on Dec. 28. An alert clerk at Oshkosh noted the check was of the type about which they had been warned to be on the alert.

She and another store employee obtained the license number of the car in which the man left without cashing the check. The license was traced to Beasley. Beasley's preliminary hearing on the Appleton charge is set for Friday.

Fred Axley Rites Monday At Seymour

SEYMOUR — Services will be held at 1 p.m. Monday at the Muehl Funeral Home, Seymour, for Frederick W. Axley, 93, who died Friday at a Shorewood Hills nursing home. Burial will be in Highland Memorial Park, Appleton.

Axley was principal of Seymour High School for 30 years and was active in the Seymour community. He served as clerk of the Seymour school board for 18 years, was chairman of the Seymour library board, served as secretary of the Farmers Equity Cooperative and was a member of the Outagamie County Teachers College board.

Survivors include one daughter, two sons, one sister, five grandchildren and five great-grandchildren.

Friends may call at the Seymour Funeral Home after 2 p.m. Sunday.

He was born in Manitowish County May 21, 1869. He was a graduate of Oshkosh Normal School and the University of Wisconsin.

Plan Hearing On Center's School Appeal

The battle of the Town of Center to build its own high school goes into another round Tuesday, Jan. 15, when an informal conference is scheduled in Madison on the question.

The township wants to build its own high school. The conference, called by State Superintendent Angus Rothwell, was requested by town chairman Harold Schmeichel and town clerk Walter Techlin.

The township is presently in high school districts including Seymour, Hortonville, Shiocton, and Freedom. The major part of the township is served by the Hortonville and Freedom districts.

Last year a move to create the new district lost when all representatives of the municipalities involved failed to show up at a hearing. The town then appealed to the state superintendent.

The issue arose when the Hortonville school district was integrated and a large portion of the Town of Center was included.

Today's Deaths

Mrs. Roberta V. Cochran, 88, Willard, Mo., who made her winter home in Appleton with her daughter, Mrs. W. Clay Cloud.
Mrs. Edward Fielding, 414 E. Washington St., New London.
George C. Glascoapp, 44, route 1, New London.

Deaths Elsewhere

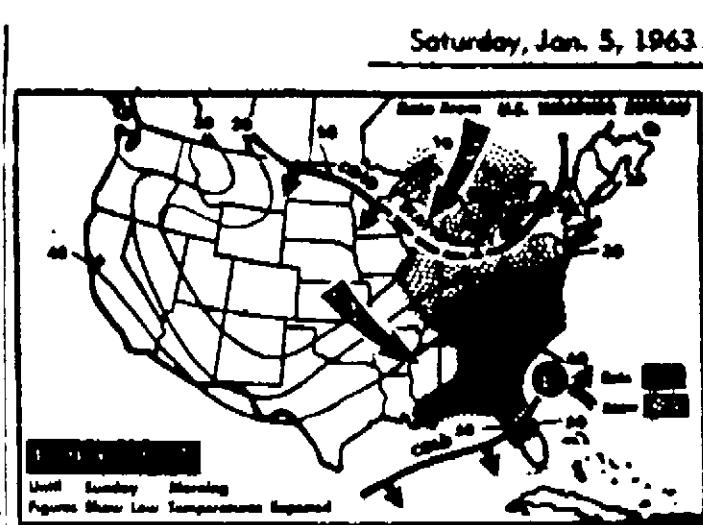

Frederick W. Axley, 93, Shorewood Hills, formerly of Seymour.

13 Outagamie Republicans Will Attend Madison Dinner

Thirteen Outagamie County Republicans will be in Madison Monday night for a statewide dinner honoring Republican state constitutional officers, legislators and congressmen elected in November.

The event, on inauguration day, will take place at the Loraine Hotel. It will climax inauguration ceremonies and receptions for the GOP state constitutional officers at the capitol during the afternoon.

Attending the events from Appleton will be Mr. and Mrs. Talbot Peterson, Mr. and Mrs. Tom Nolan, Mr. and Mrs. Gwyn Johnson, Mr. and Mrs. Max Heusel, Mr. and Mrs. Walter Gross and John Conway. Mr. and Mrs. Keith Van Vuren, Seymour, also will attend.

GOP state constitutional officers being honored will be Jack Olson, lieutenant governor; George Thompson, attorney general; Robert Zimmerman, secretary of state, and Mrs. Dena Smith, treasurer.

"In addition to honoring our many Republican officeholders, this dinner will serve notice on the false prophets of political gloom-and-doom, both within and outside of the Republican Party that Wisconsin Republicans have no intention of allowing them to be talked into a defeatist complex for the 1964 elections," Jasper declared.

The GOP leader said that the entire mezzanine floor of the Loraine Hotel, with the Cystal Ballroom and two additional dining rooms have been reserved for the event.

One political factor seemed to work against any early pact between the Army and the governors. About 19 states are in the process of swearing in new governors, and these men are likely to want to make their own decisions.

Under the law, governors must approve any changes in the National Guard within their states.

Last July, the governors conference took a stand against the plan. In quiet negotiations that followed, the Pentagon yielded on some details such as recognizing the special needs of some states for engineer, military police and other units to handle hurricanes and other disaster situations.

Also, Congress ordered the Army to make its best efforts to keep the Guard at 400,000 men instead of cutting it by 33,000, as the Army had proposed. This removed one of the irritants.

Revised Trophies
Just a month ago, Secretary of Defense Robert S. McNamara sent each governor a revised Guard troop list for his state. At the same time, McNamara ordered into effect a parallel reorganization of the federally controlled Army Reserve.

The state adjutants general—uniformed commanders of the Guard—gathered here a week later and found Army authorities determined to push the reorganization to completion.

Faced with this, the adjutants general tacitly withdrew further opposition to eliminating four low-rated Guard divisions and reforming them into streamlined brigades.

Mrs. Fay Tess, 32, who lives nearby, twice tried to rescue the children but could not swim far enough to get them into streamlined brigades.

Mei Ellis, outdoor writer for the Milwaukee Journal and associate Editor of Field & Stream Magazine.

Mrs. Tess said she had warned the children about playing near his columns dealing with wildlife a creek on the property of her around the four ponds he had dug.

The children, who lived on the grounds, Ellis' wife died about four blocks away, said they recently and he is hospitalized at present. The family home is well out of sight of the pond that claimed the youngsters' lives.

Dramatic Feat Of Space Age Cures Telstar

CONTINUED FROM PAGE 1

ed, they said. And they said they don't know for sure how much of this was artificial radiation created by the high-altitude nuclear blast over the Pacific in July.

They did know that radiation can affect the surface of transistors. It can create ions, or charged particles, from gases or solid materials in a transistor.

The ions can collect on the surface of the semi-conductor and cause harmful electrical changes. The effects become worse if a voltage is present.

The voltage serves to keep the ions concentrated. And storage batteries could supply such a voltage.

But the transistor can recover if either the radiation is removed or decreased, or the voltage is removed or decreased.

Under the high radiation encounter, the ionization apparently was hitting hard particularly at one or more transistors in the decoder in Telstar, the circuit that receives and acts upon command signals from the ground.

One clue to this was that in November, when Telstar began acting up, the command signals apparently would fail during the first couple of attempts, but then the transistor would work.

Surface Effects
This was consistent with the suspicion that the trouble lay in surface effects of the radiation. The command signals would act to decrease the voltage coming from storage batteries to the transistor.

By Nov. 23, however, even the repeated command signals were incapable of getting through. A solution, the engineers figured, would be somehow to turn off the storage batteries, to stop the voltage and let the transistor recover.

The engineers devised two racks of equipment to send "notched pulse" commands or directly relayed to the satellite during a single pass overhead, but enough to test the idea.

But the trick commands sent up from Andover, Maine, were misinterpreted by Telstar on two occasions, and Telstar disconnected its batteries ahead of time. After it came into view again, the engineers found that normal command reactions had been partially restored. The trick treatment was repeated on purpose on Wednesday and Thursday, and normal command functions were completely restored.

The engineers found that normal command reactions had been partially restored. The trick treatment was repeated on purpose on Wednesday and Thursday, and normal command functions were completely restored.

EXCLUSIVE SERVICE FOR OUR READERS AND THEIR FAMILIES

Included With \$6.00 to \$12,500 AROUND-THE-CLOCK ACCIDENT INSURANCE for your entire family*

Now... public, private and parochial school children, nursery tots, high school teenagers, college students away from home... all can be protected "Around-the-Clock" while going to and from school, at school, after school and weekends under "All Activity" accident and dread disease individual policy. Our low cost individual policy also covers Mom, Dad and ALL Children... at home, at work, at play, while traveling and on vacations. Same year 'round protection for any one person or child. Don't delay!

**INDIVIDUAL POLICY
Only 50¢ a Month
Apply Separately for Each Person**

Notice to All Parents

Sign-Up Now! SEE POLICY FIRST

NO MONEY REQUIRED WITH APPLICATION

No Waiting for EXTRA CASH BENEFITS When Anyone Is Hurt
Pays In Addition to Any Other Insurance You May Carry

1

PAYS for MINOR INJURIES

Common, Everyday First Aid Care

Doctors 1st Visit, up to... \$ 6.00

Nest & Visits @ \$3.00... 18.00

Plus X-Rays, up to..... 18.00

Ambulance, up to..... 15.00

MAXIMUM BENEFIT \$49.00

For Any One Minor Injury FROM THE 1st DAY

2

PAYS for MAJOR INJURIES

Internal and External Injuries

\$500 UP TO \$90000

For Any One Specified Accident

PLUS HOSPITALIZATION BENEFITS

Daily for 90 Days

Accumulating to 150 \$75000

Days in 60 Months up to

Extra for X-Rays and Ambulance

MAXIMUM \$1,67500 BENEFIT

Fully Accumulated For Any One Confined Accident

3

PAYS for ACCIDENTAL DEATH

Double Disembodiment, Loss of Both Eyes

FROM THE 1st DAY

\$50000 up to \$12,50000

Increasing Each Month to

\$80000 up to \$20,00000

Fully Accumulated in 60 Months

Single Disembodiment and Loss of One Eye Benefits Reduced 50%

Full Benefits to Age 60 and Half Benefits Thereafter.

4

PAYS for DREAD DISEASES

Provided 1st symptoms appear while policy is in force.

Maximum Benefits for 3 Years \$1,00000

for Each of Eleven Diseases:

- POLIOMYELITIS • TUBERCULOSIS
- LEUKEMIA • TYPHOID
- MEASLES • SMALL POX
- SCARLET FEVER • TETANUS
- ENCEPHALITIS • RABIES
- DIPHTHERIA (including preventive inoculations)

— Covers 75% of Expenses up to \$1,000 for: Hospital, Physician and Nurse Care, Physiotherapy, Transportation and Incidentals.

5

MONTHLY ACCUMULATION BENEFITS AT NO EXTRA COST

Each month you keep your policy continuously in force for 60 months, \$2.50 to \$125.00 in EXTRA BENEFITS are added to the value of your insurance AT NO EXTRA COST TO YOU.

FEW EXCEPTIONS KEEP THE COST DOWN FOR ALL

"Around-the-Clock" protection at low cost is provided for all, as stated in the policy, EXCEPT that this newspaper and the underwritten shall not be liable for any loss resulting from suicide or self-inflicted injury; any speed contest; hernia of any kind; inhalation of gas; injury or disease outside North America; war or any act of war; military or naval service; football after attaining age 13; leaving, entering or in an underground mine; any dental care other than treatment of injury to sound natural teeth.

Chewing Gum, Ice Cubes Make Bathtub Seacraft

BY CAPPY DICK

During cups you can freeze more than one sailboat at a time. How fun to make and sail on a pan of water. You will need one of those little plastic coffee measures that are included in many coffee containers. They are shaped like little boats. Figure 1.

Place a small wad of chewing gum inside the plastic spoon near the pointed end. Stick a toothpick into the gum. Fill the spoon with water. Place it in the freezing compartment of the refrigerator. If you have several of the measures...

Winter Safety While Driving can be no better than the equipment in your car, warns Dan Luebke of Dan Luebke's City Service, corner of Third and Racine streets, in Menasha. Have Dan check your car completely for winter use, with special emphasis on the exhaust systems that sometimes leak into an automobile. The telephone number at Luebke's is PA 2-2947.

Winter has finally arrived. Winter driving at its best is difficult and hazardous and if your car is not functioning to its fullest capacity it can be downright dangerous. Dan Luebke's City Service station will check all the vital parts of your automobile and keep your car tank filled with up and delivery service for his busy customers. Call PA 2-2947. Brakes and the steering apparatus in perfect working order.

Install a Lindsay Water Conditioner for your family's sake and you'll love Lindsay too, maintains Trudell's Lindsay Soft Water, Valley Fair Shopping Center. Even junior loves his bath, and your whole family will notice the big difference Lindsay soft water makes.

Dad's shaves. Trudell's states wives using soft water will often use up to 80 per cent less soap. Trudell's Lindsay soft water will be smoother. Trudell's Lindsay soft water will stay soft and fluffy. Trudell's Lindsay soft water will be the one to really fall in love with Lindsay soft water. This is because Lindsay soft water stops porcelain stain, ends the free of soap curd and lime scummy soap film. Dishes come deposits which are frequent sparkling clean without rubbing causes of mechanical failure and them dry and washes are whiter and brighter. Trudell's Lindsay soft water also find that line of water softeners were so soft water 'unlocks' more flavor designed as to be more than adequate from tea and coffee resulting in quality for the hardness of Apple. Vegetables cooked in soft water prehensive study conducted by will be tastier and retain more of their natural plumpness color. The new Lindsay Urbanite and flavor he said. And he said model provides home owners with warm soft water is ideal for an 'automatic rain barrel' which showers baths and shampoos as well as give them unlimited soft water for washing floors, walls, windows and cars leaving all dirt. Pointing out the benefits of the Lindsay line of automatic water softeners, Trudell said housewives are prepared to serve

Painting Can Be Fun when you are covering drab and faded walls in your home. Anyone can bring fresh, new brightness into every room with the wonderful new paints from Sherwin-Williams Paint company, 302 E. College ave.

Now that the Christmas decorations are down and packed away, does your home look dull and lifeless? Are the walls drab and the wood work nicked and scratched?

You are suffering from the January 'drabbies' and an easy solution and cure for this dreaded disease can be found at Sherwin-Williams, 302 E. College Avenue. Gorgeous, fresh new colors, just off the assembly line, are ready to spark up your home. Clean and bright, warm and soft, easy to apply and so good to look at, the new paints at Sherwin-Williams will steal your heart away.

Easy to do, don't have to wait for Dad and a spare weekend. You can do a room by yourself. Mrs. Housewife and have it ready for use at the end of a day. Experiment with colors or take tried and true recipes for lovely, livable combinations that have been worked out for you by the Sherwin-Williams people. Look around you today. Find the room in your home that needs a lift the most. Then come down to Sherwin-Williams and see the most wonderful selection of colorful paints available today. You'll love it.

Exercise Will Test Capability of U. S. To Reinforce NATO WASHINGTON (AP)—Exercise Long Thrust VI, another in a series of tests of the capability for reinforcing North Atlantic Treaty Organization defenses in Western Europe, will be held Jan. 14-17. This was announced jointly today by the Defense Department and by Gen. Lyman L. Lemnitzer, NATO commander in Europe. The exercise will move about 1,500 men of the 1st Battle Group, 28th Infantry Regiment, 1st Division, from Ft. Riley, Kan., to Germany by jet transports of the Military Air Transport Service. With the arrival of the new battle group in West Germany, the 2nd Battle Group of the 12th Infantry Regiment, 1st Division, will be returned to the United States. The latter group was airlifted to Europe in a previous Long Thrust exercise.

New Orders To be Issued On 2 Rivers

Post-Grand National Service MADISON — New orders covering revised water pollution control measures for the Fox and Koshong rivers in northeastern Wisconsin will be issued early next month by the State Committee on Water Pollution.

T. F. Wierwille, director of the agency, said he is now preparing the orders which will be put before the committee for a vote of approval at its meeting on January 28.

The last orders on the river systems were issued eight years ago, and they have been revised since that time to ascertain possible new pollution sources, compliance with original requirements and other developments. Hearings were held in conjunction with a proposed new order on the Koshong river which was issued about six weeks ago.

Appleton YMCA Will Offer Scuba Diving, Swimming Classes

A men's swimming course and a scuba diving instruction course will be offered at the Appleton YMCA starting Jan. 17. The men's swimming instruction course will meet from 7:45 to 8:30 p.m. Persons interested may call the YMCA or register at the first session.

Frank Pierr, national qualified diver, will be instructor for the scuba diving instruction course which will meet from 7:30 to 10:30 p.m. Persons interested may register by calling the YMCA. Equipment will be furnished.

1911 FORD

From the Very Beginning, Sherry Motors, Inc., has offered the best in used cars. This month a real super-market special is being offered. Sherry's Used Car lots are located at 925 W. Wisconsin avenue and 325 W. Washington street.

The pricing on all the used cars have moved into the two-or-more is real super-market savings at car ranks. A recent national Sherry's this month and in add: survey showed that the number of Sherry's will total \$20.00 multi-car households in the count worth of groceries in your back try increased from 4.1 million in 1954 to 7.9 million in 1962—a rise of 90 per cent.

There are many different kinds of shoppers in a used car. The eighth year period saw a lot. A good used car is a good 23 per cent gain in the number investment for most drivers of single car household in the nation. Young couples just starting out on their own. Households with three older couples after retiring from work or more cars rose from 411,000 in 1954 to 750,000 in 1962. Those that need two or more cars. Passenger cars are now owned in their garage by 42 million households or 77 per cent of all families. This is a rise from the 34.3 million households in 1954 which statistics released by the Automobile Manufacturers Association.

More than three and one-half million United States families have, Inc.

North Central Sets Record at Oshkosh

Passengers, Mail, Freight Rise During 1962, Manager Reports

OSHKOSH—North Central Airline set new records here in 1962 for number of passengers carried, pounds of airmail carried and in the number of pounds of air freight carried, Al Jaeger, station manager, reported today.

The number of flights declined for the second straight year, to 4,146 from 4,177 in 1961 and 4,414 in 1960. Air express figures were above 1961 but were down slightly from 1960.

Passenger traffic during 1962 totaled 55,982, compared with 49,986 in 1961. This breaks down to 27,434 passengers boarding planes here and 28,548 passengers arriving.

Police in Two Cities Check Burglaries

Homes, Business Places Entered in Neenah, Appleton

Break-ins at professional offices in Neenah, a Neenah garage, entry of an Appleton home and an attempted safe cracking were discovered by Neenah police and Appleton residents Friday.

About \$500 and articles were reported taken at the home of Norman Radtke, 903 N. Appleton St., Appleton. Officials at Kurz Electric Service Corp., 1024 S. Oneida St., Appleton, told police nothing was missing after an attempt was made to enter the firm's safe.

Neenah police said losses are not yet determined at the Winnebago Motors, Inc., garage, 216 N. Commercial St., and at the Professional Arts building, 134 E. Wisconsin Ave.

Radtke told Appleton police his home was entered with use of a key hidden near the front door. Missing were liquor and cigars from his root cellar, a watch, cigarette lighter and \$500 in a wallet hidden in a closet chest. He said rooms and closets were ransacked.

Al Johnson, of Kurz Electric, said the combination dial was knocked off the safe and chisel marks were noted around the door. He said entry may have been made while he was in the shop sometime Friday evening.

Found by Patrolman

The Neenah office building break-in was discovered by a patrolman at 11:25 p.m. Friday, and the garage break-in by a patrolman at 2:46 a.m. today.

In the Professional Arts building at Neenah, entry was gained by chiseling the wood on the rear door frame and prying open the lock. Locks on each of the office doors were pried open and money taken from desks in each office.

Rear Door

Offices in the building are those of attorneys Jerome Bonnier and Robert DiRenzo, Dr. G. H. Hardie, the architectural firm of Boettcher and Glinow and the F. S. Moseley and Company investment firm.

The garage break-in was through a rear door. Money was taken from a cash register, which had been removed from the showroom and pried open and left in the repair section.

S. F. Stingle, operator of the Music Box Associates, 1 Main St., Menasha, said someone tried to enter the firm through a rear door but was unsuccessful.

Curator Plans OSC Lecture

Copper Culture to Be Topic Tuesday For Museum Official

OSHKOSH — Robert J. Hruska, curator of anthropology and assistant director of the Oshkosh Public Museum, will speak at Reeve Memorial Union at Oshkosh State College at 7:30 p.m. Tuesday. His subject will be "Exploration of the Old Copper Burial Site at Menominee, Mich."

Hruska's discoveries at this burial site during the last two summers have attracted nationwide attention in archaeological circles. Under his leadership a team of excavators working with shovels, trowels, and small brushes has recovered artifacts showing this site to be the richest of only four sites yet uncovered of the Old Copper people who lived in the Michigan - Wisconsin area at least 3,000 and possibly 5,000 years ago. The work is being financed by a grant from the National Science Foundation.

Hruska said all Old Copper site artifacts he finds will remain at the Oshkosh Public Museum.

The lecture and slides will illustrate a summer's work at the site. During the winter, Hruska catalogues and classifies materials found during the summer. He is assisted by an Oshkosh State College senior, Charles Burke.

The meeting, sponsored by the History Department, will be open to the public.

Carry Mail

Air mail carried last year was 236,000 pounds of air mail and 4,802 pounds of first class surface mail boarded and 182,813 pounds of air mail and 4,861 of surface mail terminating here. The 1961 figures were 177,980 pounds of air mail, and 811 pounds of surface mail boarded and 169,819 of incoming air mail.

All of the first class mail carried by air was during December for both 1962 and 1961.

Air freight is proving to be the fastest growing item carried by the airline as 1962 figures are almost double those of 1961 which, in turn, were 50 per cent higher than in 1960.

Outgoing air freight totaled 418,314 pounds, compared with 257,757 pounds for 1961. The incoming total for 1962 was 233,353 pounds, compared with 108,441 pounds for 1961.

List Express

Outgoing air express amounted to 121,341 pounds in 1962, compared to 109,010 pounds in 1961. The incoming amount was 113,926 pounds last year and 106,879 pounds the year before.

For comparison, 10 years ago North Central had a total of 13,603 originating and terminating passengers here at Oshkosh. Incoming and outgoing air mail totaled 11,315 pounds and incoming and outgoing air express totaled 124,342 pounds. There was no air freight.

6 Hurt in Crash Near New London

NEW LONDON — Six people were injured about 2:30 p.m. Friday in a two-car accident on County Trunk W six miles south of here.

Injured were Mrs. Willard Christensen, 37, 168 Denhardt Ave., Neenah, chest and head injuries; Jimmie Christensen, 11, broken leg; and Barton Christensen, 5, bruises; Darcey Christensen, 13, bruises; and John Shaw, 22, route 1, New London, mouth injury.

The Christensens were passengers in a car driven by Mrs. Christensen. Her car was going south on W.

Shaw, who was alone in the car, was going north on W. Police said the Christensen car was attempting to make a left turn onto County Trunk W when the two cars came over the crest of the hill and met head-on.

The injured were taken to New London Community Hospital. The Christensen's 1956 car was a total loss. Shaw's car had \$800 estimated damages.

Neenah Tax Payments To Be at 1st National

NEENAH — Payment of 1963 taxes by Town of Neenah taxpayers are to be made at the First National Bank starting Jan. 16. The place of payment was erroneously listed Friday as being at the National Manufacturers Bank. Taxes also may be mailed to the town treasurer, Robert G. Williams.

Michael Roland Wilcox, first Appleton baby of the year, poses with his mother, Mrs. Theodore Wilcox, 1733 W. Sanders St., at St. Elizabeth Hospital. Young Michael seems more interested in the camera than in the \$25 bond he is getting from Fred Schweikher, Post-Crescent promotions manager, one of many gifts given to the first baby of 1963 by Appleton businesses. (Post-Crescent Photo)

Crowds Thronged the New Northern State Bank during open house this weekend. The bank, at Wisconsin Avenue and Drew Street, is the first new bank in a half century. Cost of the structure was \$200,000. (Post-Crescent Photo)

Appleton's First New bank in a half century held open house this weekend. Present for ribbon cutting ceremonies at the Northern State Bank were, from left, Richard Herrema, vice president and cashier, Appleton Mayor Clarence Mitchell and Charles Riley, president of the Northside Advancement Association. Outagamie Low in Amount of Fringe Benefits to Employees

County in Lower 18 Per Cent of Counties, State Survey Shows

BY DICK LYNEIS
Post-Crescent Staff Writer

Data supplied by the Bureau of Personnel of the State Department of Administration indicates that Outagamie County provides fewer fringe benefits than some other counties.

Whether the figures indicate that Outagamie County "lags" or not is, however, a matter of individual opinion.

For example, Outagamie County, like Winnebago County, is in the lower 18 per cent in the number of paid holidays given by the state's 72 counties.

Both Winnebago and Outagamie allow six paid holidays—Christmas, New Year's Day, Memorial Day, Independence Day, Labor Day and Thanksgiving. Winnebago allows the same six, plus Washington's Birthday and Veterans' Day.

Calumet County is in the upper third when it comes to holidays. In addition to the basic six, Calumet allows Lincoln's Birthday, Columbus (or Landing) Day, Washington's Birthday and Veterans' Day.

Leading the state in this category is Burnett County with 12.

The counties with the least number are Manitowoc and Wood with five.

Vacations Given

With the exception of a handful of counties, practically all counties give two weeks paid vacation after varying years of employment.

However, only 23 counties in the state allow three or more weeks of paid vacation. Winnebago and Outagamie counties are two of the 23.

Outagamie allows three weeks after 15 years, two weeks after 10 years, and a single week after one year. Winnebago gives three weeks after 10 years, and two after one year.

Waukegan County employees are allowed two weeks after five years, and one week after a year. Calumet County gives only one vacation category — two weeks after one year.

Two counties go as high as four weeks — Milwaukee and Oneida counties. In Milwaukee it's after 20 years, while in Oneida it's 25. Twenty-one of the state's counties do not allow sick leave time, but of the ones that do, Waukegan is top. Up to 30 days of sick leave can be earned in any given year.

The average amount in a year for the counties which allow sick leave is 10 to 12 days, with two as high as 15.

Near Bottom

Outagamie County is near the bottom of the list with six days per year and a maximum accumulation of 60 days. Winnebago County also allows a maximum accumulation of 60 days, but gives seven days in a year.

Thirty-eight, or about half the counties in the state have some type of an overtime compensation practice including straight time,

PSC Okays Bus Line Fare Boost

Fox River Bus Lines was authorized to increase its children's fare from 7 to 10 cents Friday by the Wisconsin Public Service Commission in Madison.

The commission also approved a request by the Village of Combined Locks to increase rates to raise an additional \$3,106.

The bus line cited higher expenses as the basis for the increase. The PSC found that if the 10-cent fare had been in effect during 1962, the firm would have collected an additional \$2,700. The old fare was established in 1959. Adult fares remain the same.

Crash Victim Stranded in Cold, Injured

Robert Thirk, 40, Suffers Exposure, Taken to Hospital

CLINTONVILLE—A rural Manawa man suffered exposure, received a broken leg, possible back injuries and possible frozen feet after being stranded in the cold for more than an hour following a one-car accident near here Friday.

Robert Thirk, 40, route 2, Manawa, was taken to Iowa Hospital. Waukegan County police said Thirk was traveling west toward Symco when his auto missed a curve near the old Dellwood school. They said his car rolled side over side.

Thirk was found by a passing motorist at about 2:45 a.m. The accident occurred between 1 and 1:30 a.m.

Kaukauna Man Buys Winneconne Company

WINNECONNE — Marvin Beyer, Kaukauna, has purchased the Fuller Goodman Lumber Co. yard here and will operate the business as the Beyer Building Materials, Inc.

Kaukauna Building Hits \$4 Million

1962 Total Includes \$2 Million For New City School Construction

KAUKAUNA — Total building costs for 1962 amounted to \$4,013,150, compared to \$36,300 for 1961, according to Lotter Kemp, assistant building inspector.

Commercial building rose from \$236,840 in 1961 to \$3,013,150 in 1962, but this does not mean a major increase in tax revenues since over \$2,000,000 was for school construction which does not result in tax money being collected.

Residential building dropped from \$699,450 in 1961 to \$952,750 in 1962. A total of 44 new homes costing \$631,200 were built last year compared to 36 homes costing \$631,000 were built in 1961. Fifty permits for alterations costing \$60,000 were issued in 1962 compared to 40 costing \$43,200 in 1961.

Other Permits

A total of 36 garages costing \$21,500 were built in 1962 compared to 36 costing \$24,685 in 1961. Nine new commercial buildings were constructed in 1961 costing \$1,334,200 compared to 10 costing \$216,950 in 1961.

The new buildings include two at Thilmany Pulp and Paper Co., a new Badger Northland Manufacturing plant, new grade school, service station, funeral home, beauty shop, drug store building, and power motor sales building. Fifteen permits for alterations and repairs to commercial buildings were issued, cost of construction estimated at \$1,906,200. Eleven permits were issued in 1961, cost estimated at \$18,850.

Appleton Council Plans Discussion On 'Moonlighting'

Committee to Study Whether City Should Enforce Its Ordinance

BY WILLIAM C. CAREY
Post-Crescent Staff Writer

Whether the City of Appleton should enforce its policy prohibiting municipal employees from holding full-time outside jobs will get a thorough airing Wednesday night at a meeting of the common council's personnel committee.

The practice of "moonlighting" (an expression used to designate that a person holds more than one job) has been prevalent in the Appleton police and fire departments.

City officials admit that enforcement of the anti-moonlighting rule has been "relaxed" since during World War II.

Police Chief Earl Wolff disclosed recently that he instructed two of his men to refrain from having outside employment. In addition to their regular police duties, they had been working as guards at an Appleton plant where a labor dispute is in progress.

At the time, Chief Wolff said he did not think the work was compatible with the regular law enforcement work of the two policemen.

Men 'Moonlight'

Fire Chief Earl Roland Kuehl says most of his men have been "moonlighting" and he will leave it up to the common council to decide whether the rule against it should be enforced.

Since then it was learned that some Outagamie county employees, whose full-time jobs are connected with law enforcement work, also worked at the strike-bound plant and were recently called to testify at an unemployment compensation hearing.

A. W. Ponath, Outagamie County Corporation Counsel said Friday that to his knowledge the county has no rule which prohibits its employees from having additional employment over their regular jobs.

"I have no knowledge of such a rule," Ponath commented.

Cited Opinion

However, Ponath did indicate that opinions by the attorney general's office over the years clearly state that "as a matter of law" moonlighting activities would be illegal if a conflict of interest existed.

Ponath said the opinions dealt with whether the second or outside job is compatible with the regular work duties of an employee of a municipality.

It was not stated who would determine whether a conflict of interest existed, or whether the employee's second job was compatible with his first.

Ald George Buckley (14th) has dumped the matter in the hands of the personnel committee and common council in the form of a resolution which would permit employees of the city to hold extra jobs, providing they did not interfere and were compatible with their regular work.

Buckley's resolution reads that: "Any employee of the City of Appleton be permitted to accept any supplemental employment other than his city position, as

long as said employment shall not be incompatible with the interests of his city position, and as long as it shall not impair his efficiency in his work for the City of Appleton."

Municipal employees who have been holding outside jobs, and a few who are in business for themselves, say they need the money to supplement the income they derive from the city.

One alderman suggested recently that "if the city paid its employees more there would be no need for moonlighting."

Twin Cities Phone Total Hits 20,500

Neenah-Menasha Manager Gives Year-End Report

MENASHA—A new high in the number of telephones in service in Neenah - Menasha has been announced by Manager Clifford M. Flaherty of the Wisconsin Telephone Co.

Latest figures show 20,500 telephones now serving local subscribers, an increase of 900 more than the 1961 total.

Customer calling in the exchange also maintained a high level during the year, according to Flaherty. Latest figures indicate a rate of 80,600 calls per day.

Gave Report

Flaherty's end-of-the-year report showed that the Wisconsin Telephone Co. investment in the exchange now stands at \$5,022,000. Added investment during 1962 was spent to expand telephone facilities.

Flaherty said a major 1962 project increased the amount of central office dial switching equipment at a cost of \$50,000. This increased the capacity of the telephone office, 117 S. Commercial St., Neenah, by 600 subscribers.

Built Cable

A \$20,900 cable project was constructed to serve the southwest portion of the Neenah exchange.

Flaherty said the most important telephone service improvement to be introduced since the conversion from manual to dial operation occurred in May when direct distance dialing went into service here.

"Since 1945, hardly a year has passed that did not require some expansion of local calling facilities at Neenah-Menasha," Flaherty said.

Four Men Fined in County Court on Conduct Charges

OSHKOSH — Four persons were fined for disorderly conduct by County Judge James Sitter Friday, two on a Neenah arrest and the other two on separate county arrests.

Loren Sampson, 611 W. Spring St., Neenah, was fined \$50 and costs or 15 days in the county jail for a disturbance last Saturday at a Town of Clayton tavern.

Orville W. Siebers, 31, 463 Merrill Ave., Oshkosh, formerly of Little Chute, was fined \$25 and costs after he pleaded no contest. He was arrested Dec. 15 in the Town of Winchester.

Fines of \$5 and costs each were imposed on two brothers, Jacob Schneider, 23, 401 N. Commercial St., Neenah, and Sebastian Schneider, 19, 107 Second St., Neenah, after they changed a previous innocent plea entered in court at Neenah Wednesday to one of guilty this morning.

They were arrested after a disturbance Dec. 15 on N. Commercial Street in Neenah. The older pair were walking down the street when a third person whom they did not know called obscene names to them from a car and then got out of the car and started to fight the younger brother.

He said he himself became involved trying to stop the fight. Disorderly conduct charges still are pending against the third person involved.

Appleton Man Fined \$15 on Conduct Charge

A 26-year-old Appleton man arrested Dec. 27 who pleaded innocent of disorderly conduct, changed his plea to guilty when he appeared Friday in Outagamie County Court, Branch 2.

Charles Swartz, 1113 N. Durkee St., was taken to the Appleton City Jail after a disturbance at his home. Police were called to the home by a telephone caller from a restaurant, saying Swartz had been calling the restaurant to talk to his estranged wife.

Swartz was fined \$15 and costs and ordered held in jail until 2 p.m. Monday. County Judge Gustave Keller credited the man with eight days he served prior to his court appearance.

Terry Brennan Named To Brokerage Post

MILWAUKEE (AP) — Appointment of Terence P. (Terry) Brennan, former Notre Dame University football coach, as resident manager of the Milwaukee office of Bluth & Co. Inc., a brokerage firm, was announced Friday.

Brennan, 34, who was with the Blyth firm in Chicago, will report to Milwaukee Jan. 27, according to his father, Martin J. Brennan, an attorney.
